State of North Dakota Online Setup and Run Request User's Manual

1989

jaguar java gui for applied research is a java software tool providing an advanced text editor and graphical user interface gui to manipulate dakota design analysis kit for optimization and terascale applications input specifications this document focuses on the features necessary for a user to use jaguar

Dakota Jaguar 2.1 User's Manual

2011

jaguar java gui for applied research is a java software tool providing an advanced text editor and graphical user interface gui to manipulate dakota design analysis kit for optimization and terascale applications input specifications this document focuses on the features necessary to use jaguar

Dakota Jaguar 3.0 User's Manual

2013

the dakota design analysis kit for optimization and terascale applications toolkit provides a flexible and extensible interface between simulation codes and iterative analysis methods dakota contains algorithms for optimization with gradient and nongradient based methods uncertainty quantification with sampling reliability and stochastic finite element methods parameter estimation with nonlinear least squares methods and sensitivity variance analysis with design of experiments and parameter study methods these capabilities may be used on their own or as components within advanced strategies such as surrogate based optimization mixed integer nonlinear programming or optimization under uncertainty by employing object oriented design to implement abstractions of the key components required for iterative systems analyses the dakota toolkit provides a flexible and extensible problem solving environment for design and performance analysis of computational models on high performance computers this report serves as a user s manual for the dakota software and provides capability overviews and procedures for software execution as well as a variety of example studies

DAKOTA

2010

lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into

the nasa scientific and technical information database

Medical Audiovisual Services

1976

proceedings from the international conference on advances in engineering and technology aet2006

Data Base Users Manual

1982

february issue includes appendix entitled directory of united states government periodicals and subscription publications september issue includes list of depository libraries june and december issues include semiannual index

Proceedings of the First Membership Conference of the National Water Data Exchange, May 9-11, 1978, Denver, Colorado

1979

june and dec issues contain listings of periodicals

Scientific and Technical Aerospace Reports

1981

Highway Safety Literature

1978

South Dakota Science & Mathematics Teachers' Network
