

Download free Euroscepticism in southern europe a diachronic perspective south european society and politics Full PDF

does it make sense to speak of a european society above and beyond its component states and regions in this major new book william mouthwaite argues that it does he goes beyond the study of individual states and specific regions of europe to examine the changing contours of the continent as a whole at a time when europe is beginning to look and act more like a single entity in what we have come to call europe there developed distinctive forms of political economic and more broadly social organisation many of course building on elements drawn from more advanced civilisations elsewhere in the world during the centuries of european dominance these forms were often exported to other world regions where the export versions often surpassed the originals in the present century many features of european life remain distinctive the european welfare or social model a substantially secularised culture and particular forms of democratic politics and of the relations between politics and the economy this book provides a concise overview and analysis of these features which continue to make europe a relatively distinctive region of global modernity the book will become a key text for students taking courses on contemporary europe whether these are in departments of politics sociology literature or european studies it will also be of great interest to anyone living in or concerned with europe today this book surveys the sweeping changes effecting europe from the end of the fifteenth century to the early decades of the eighteenth century it examines the significance of broad community based norms and the development of social disciplines mobilising politics and society offers a timely analysis of the european union convention's impact on the domestic political systems and civil society in southern europe it provides country chapters on portugal spain italy greece malta cyprus and turkey all chapters follow a common scientific template in order to offer material for genuine cross country comparison in addition the volume contains horizontal chapters on three important issues the mobilisation of intellectuals sub national politics and the participation of women the editors compare results of the country chapters in their conclusions the book contains documentation on the eu convention and south european participants this volume was previously published as a special issue of the journal south european society and politics european integration is one of the most ambitious and socially far reaching developments in world politics and in world economics against growing opposition and despite increasing social heterogeneity the european union continues to expand and to acquire new competences but to what extent is the self proclaimed ever closer union among the peoples of europe a social reality in which ways is the political european project anchored in social developments how does social change impinge upon political integration societal trends in multi cultural multi ethnic multi lingual and socially diverse europe have never been studied systematically handbook of european societies social transformations in the 21st century sets to rectify this neglect of societal developments in europe providing a groundwork for the sociology of european integration the book portrays social life and social relations in the enlarged europe and gives a perspective on the european union as an evolving social entity handbook of european societies is a pioneering source book analyzing the current social patterns on the continent it covers a representative selection of major topics of social concern and sociological relevance such as collective action consumption identity power structure sexuality stratification and well being each contribution probes key developments in a strictly comparative manner the handbook thus offers a detailed look into the intricacies of the national societies of europe and into the prospect of an emerging european society the editors have enlisted leading researchers to synthesize existing knowledge and to make use of many different data sources in a straight forward style the contributions stay away from jargon simple labeling and sweeping assertions instead they provide solid and accessible information on a wide variety of social trends and processes within and across european societies trenz introduces a sociological perspective on european integration by looking at different accounts of europeanization as society building he observes how europeanization unfolds in ongoing practices and discourses through which social relations among the europeans are redefined and re embedded the chapters describe how the project of european integration has been powerfully launched in postwar europe as a normative venture that comprises polity and society building how this project became ingrained in every day life histories and experiences of the europeans how this project became contested and confronted resistances and ultimately how it went through its most severe crisis a sociology of european integration is thus outlined along four main themes or narratives first the elite processes of identity construction and the framework of norms and ideas that carries such a construction together with notions of european identity eu citizenship etc second the socialization of european citizens processes of banal europeanism and social transnationalism

through everyday cross border exchanges third the mobilization of resistance and euroskepticism as a fundamental and collectively mobilized opposition to processes of europeanization and fourth the political sociology of crisis linked not only to financial turmoil but also more fundamentally to a legitimation crisis that affects europe and the democratic nation state a good social history of europe has yet to be written though given the developments over the last few decades this seems more urgent than ever before this volume presents an important step forward in that it brings together eight internationally known social historians from europe and israel each of whom offer an overview of some key themes in european history during the last two centuries while dealing with the great changes of this period the authors reveal the commonalities that link european societies together but also important differences at a national level this wide ranging and comparative text reviews the major theoretical and substantive debates on social inequality in europe it provides a valuable dual focus on european society and individual societies while placing europe in its wider global context demonstrating the continued importance of national difference within europe the author argues that nonetheless the european social model has softened social inequalities such as those of wealth and income distribution social class gender and possibly even ethnicity however these achievements are now being undermined partially by the european union itself the book also challenges conventional wisdom on europe s alleged need for immigration and highlights the uk s distinctiveness within europe explaining the country s uneasy relation to the european project this book will be of great interest to students and scholars of politics european societies social policy and comparative studies the eu is to day at a crossroad either it becomes a great supranational union or it goes back to being an array of separate independent states alberto martinelli and alessandro cavalli draw a grand fresco of the society in which the european union is taking shape recent social and political developments in the eu have clearly shown the profound structural changes in european society and its politics reflecting on these developments and responding to the existing body of academic literature and scholarship this book critically discusses the emerging notion of european constitutionalism its varieties and different contextualization in theories of eu law general jurisprudence sociology of law political theory and sociology the contributors address different problems related to the relationship between the constitutional state and non state constitutionalizations and critically analyze general theories of constitutional monism dualism and pluralism and their juridical and political uses in the context of eu constitutionalism individual chapters emphasize the importance of interdisciplinary and socio legal methods in the current research of eu constitutionalism and their potential to re conceptualize and re think traditional problems of constitutional subjects limitation and separation of power political symbolism and identity politics in europe this collection simultaneously describes the eu and its self constitution as one polity differentiated society and shared community and its contributors conceptualize the sense of common identity and solidarity in the context of the post sovereign multitude of european society back cover the third edition includes substantial revisions and new material throughout the book that will secure its standing as the most useful history available of preindustrial europe the book examines major social transformations in europe from the perspective of social theory it offers an intriguing alternative to studies of the eu which emphasise the replacement of the nation state by a supra national authority using innovative digital humanities research yoked to a specially built database of sources making a living making a difference revises many received opinions about the history of gender and work in europe through analysis of the micro patterns of early modern life back cover this book examines the origins evolution and prospects of opposition to european integration focusing on southern europe a region traditionally regarded as exceptionally euophile the volume was published as a special issue of south european society and politics uniting a team of international and interdisciplinary scholars this volume considers the views of early twentieth century european thinkers on the creation dissemination and management of publicly available information european modernism and the information society will interest all who are curious about the creation of a modern networked information society many europeans struggle to understand where eu centred europeanization has led them the standard response that their situation is sui generis one of a kind no longer holds brexit conflicts over european financial transfers immigration or dubious judicial reforms in some member states demand a more substantial answer against that background the emergence of european society through public law a hegelian and anti schmittian approach frames european integration by reconstructing european public law in light of article 2 of the treaty on european union teu according to article 2 all europeans today are part of one society european integration may not have produced a european federal state but it has helped create a european society this society is intimately interwoven with european public law as the treaty characterizes it with 12 constitutional principles the book interprets this statement as the manifesto identity and constitutional core of a democratic society thus europeans should understand that european integration has ushered in a european democratic society comprehensive and engaging the emergence of european society through public law examines the great debates of european public law and presents them in a new and forward looking reconstruction this new narrative of european legal integration will appeal to academics and students of eu law constitutional and comparative law sociology political science and legal history the emergence of european society

through public law is an open access title available under the terms of a cc by nc nd 4 0 international licence it is free to download from oup and selected open access locations democratic institutions and laws are essential but they cannot bring about democracy on their own they will only function if they build on a culture of democracy and our societies will not be able to develop and sustain such a culture unless education plays an essential role student engagement is crucial democracy cannot be taught unless it is practised within institutions among students and in relations between higher education and society in general this 20th volume of the council of europe higher education series demonstrates the importance of student engagement for the development and maintenance of the democratic culture that enables democratic institutions and laws to function in practice this volume covers three aspects of student engagement that are seldom explored its role in society through political participation and civic involvement its place in higher education policy processes and policy making structures and how student unions represent the most institutionalised form of student engagement the authors are accomplished scholars policy makers students and student leaders the european union is the first full length treatment of european integration from a sociological perspective it redirects the core concerns of political sociology away from nationally bounded societies towards a sociology beyond societies capable of making a valuable contribution to thinking about the nature and problems of the european union within this broad objective the book concerns itself with such key issues as the relation between the eu and globalization the nature of the eu state and the question of whether a european society can be said to exist students scholars and sociologists interested in the history development and legacies of the european union will find this to be a unique and informative text the role of the third sector within european society is an extremely topical subject as both governments and the eu continue to consider the role these organizations can play in providing essential public services this book presents contemporary research into this emerging area exploring the contribution of this important sector to european soci examines the origins and development of the distinction between civil society and state and its contemporary relevance in relation to households labour markets trade unions voluntary associations political parties and state bureaucracies offers 10 profiles written by 10 of today s leading medievalists monks the warrior the knight the peasant agriculture the city dweller life in cities towns the intellectual the artist the merchant women the family the saint the marginal man opens a delightful window into the past will be essential reading for students of the medieval period for those fascinated by the middle ages suggested readings bibliography conclude each profile ever since the late 18th century european society has been undergoing a transformation in which the most dynamic element has been the middle class this provocative book contains the first comprehensive study of 18th and early 19th century bourgeois society by american european and israeli scholars in history anthropology literature sociology and law they examine the specific characteristics of the middle class social types the extent to which their values and interests altered the texture of 19th century european society and national differences that emerged in their development in 1950 nearly 300 of europe s leading artists philosophers and writers formed an international society intended to end the cold war the european society of culture was composed of many of western europe s best known intellectuals including theodor adorno julien benda albert camus benedetto croce andre gide j b haldane karl jaspers carl jung thomas mann henri matisse francois mauriac maurice merleau ponty jean paul sartre giuseppe ungaretti and albert schweitzer among many others over the next twenty years it would also include many luminaries from the east such as bertolt brecht ernst bloch ilya ehrenburg and georg lukacs pioneering the earliest political discussions between intellectuals in eastern and western europe that would serve as a model for the activities of the better known ccf in its efforts to end communism the esc went on to create an informal but powerful 1 600 member strong cultural and political network across the world in pursuit of dialogue between the marxist east and the liberal west and in pursuit of peace and shared cultural values here in this first comprehensive history of the sec s early years nancy jachec demonstrates the influence its members had not only on preventing the isolation of europe s eastern states but on enabling the flow of people publications and ideas from the west into the east thus playing a vital role in introducing the ideals of human rights and cultural rights in the east in the run up to the signing of the helsinki accords of 1975 she also shows the profound impact that the sec had on the development of post colonial theory through the exchanges it organised between european and african intellectuals directly shaping the expectations statesmen like leopold sedar senghor revolutionaries like frantz fanon and institutions such as unesco would have of culture in newly emerging countries the manual of hypertension of the european society of hypertension reflects emerging concepts that have the potential to impact diagnostic and therapeutic approaches to hypertension updating all material this new edition also delves into a number of areas that have received heightened interest in recent years or have become a matter of debate due to the controversial interpretation of the available data features reflects emerging concepts impacting diagnostic and therapeutic approaches explores background history epidemiology and risk factors describes pharmacological nonpharmacological and medical treatments examines hypertension in special populations and treatment everyone accepts that education should be for all but how is education best provided this book deals with problem areas in european education for

example school quality examinations the teaching of foreign languages and science education it also spells out the role of basic education in forming a european identity and consciousness this book reveals how in confrontation with secularity various new forms of christianity evolved during the time of europe s crisis of modernisation rudolf schlögl provides a comprehensive overview of the development of religious institutions and piety in protestant and catholic europe between 1750 and 1850 at the same time he offers a detailed exposition of contemporary philosophical theological and socio theoretical thought on the nature and function of religion this allows us to understand the importance of religion in the self defining of european society during a period of great change and upheaval religion and society at the dawn of modern europe is a pivotal work translated into english here for the first time for all scholars and students of european society in the 18th and 19th centuries in recent years the peasant household has become a central focal point of social history this is true not only because the peasant represents the major element of european society through the nineteenth century but also because many of the main issues in modern historical debate can be studied within the sphere of the peasant family this book deals with the european peasant family during the period of transformation from agrarian to industrial society the time called by some the period of protoindustrialization the essays in this volume explore some of the major issues concerning the influence of the economy society and institutions on the peasant household and conversely the influence of the peasant household on the outside world themes dealt with include the ways in which the physical environment and the economy may make for very different family structures and even affect intra family relationships the effects of inheritance marriage and kinship strategies as well as social pressure on peasant family structure and demography the debate about changing gender roles and status the debate over the manner and effects of class formation questions of social and political agency the nature of gender and parent child relations the validity of protoindustrial theory and the role of peasants in initiating industrialization as consumers producers and as a labor force in examining these themes the essays provide both case studies and innovative analysis by preeminent international scholars in the fields of family and women s history economic history and demography it has been argued that political parties are weakening in southern europe however political parties have shown remarkable pragmatism not only have they played a crucial role in the installation and consolidation of democracy mostly in the 1970s and 1980s but they have also adapted to the aftermaths of severe political crises during the 1990s party change in southern europe addresses a basic issue have parties in southern europe weakened over the decade 1995 2005 or have they rather changed and if so how have they changed to answer these questions the authors analyze the transformations undergone by the two main parties in italy spain greece portugal turkey and cyprus north and south focusing on several dimensions of change for each political group systematic analysis is offered on party organization electoral politics competitive strategies party values and programmes this book was previously published as a special issue of south european society and politics focusing upon the 15 years during which spain and portugal have been members of the european union this collection of essays addresses issues related to the anniversary which took place in 2001
