Code of Reform and Prison Discipline 1826 this work has been ten years in the making the physical and emotional trauma inflicted during the time between april 11 and april 21 1993 has left many scars while most of the physical scars have long since faded it is the emotional scars that have lingered after 11 days of brutal captivity two weeks of hospitalization months of physical healing and therapy seventeen post riot trials two strokes a lay off and transfer to another agency larry dotson is ready ready to tell the story that has yet to be told and ready to take the next step in the healing process this book will not tell the complete story of the lucasville riot no single book can because every hostage staff member inmate rioter non rioting inmate their respective families and all those assigned to socf during the riot has a story to tell no this book will only tell the story of one of the hostages larry dotson larry was working in an area in which he was not originally assigned but because of the large number of staff call offs he found himself in the wrong place at the wrong time following a severe beating while attempting to rescue a fellow staff member larry was brutally beaten and held hostage by two violent and rival gangs that put aside their differences and put forth a unified front in defiance of the prison administration the administration that larry represented in the pages that follow are the details that until now have been reserved for the administrators investigators lawyers and juries it is a story that all those who find themselves in a position of advocating budget cut backs staff reductions and a moderation of security need to read and absorb in 1993 ohio ranked a pathetic last in inmate to correction officer ratio liberal federal court orders strengthened inmate s rights while

compromising the safety and security of those who were responsible for carrying out the decisions those court orders along with public apathy budgetary legislative and executive shell games ignited the fuse that resulted in the longest and third most bloody prison riot in u s history in 2003 ohio finds itself sinking into the bowels of history returning to the conditions that existed in 1993

The History and Politics of Private Prisons 1993 with more than one million people behind bars the united states imprisons a larger share of its population than any other industrialized nation this has precipitated a serious overcrowding problem with federal and state prisons currently operating well beyond capacity conventional efforts appear unable to cope with the increasing shortage of beds or with inadequate

rehabilitation services a bold solution is required increasingly it is being seen to reside in the private sector this timely volume explores the issues of private versus public financing construction and management of medium and high security prisons private prisons are not a new concept in the united states they have existed in several forms since the eighteenth century the opening chapters evaluate historical cases of prisons for profit examining the concerns of labor abuses of inmates and the source and resolution of disputes between private and public sectors these chapters argue that the experience gained through privatization does not justify current opposition from civil libertarians or labor unions chapters dealing with the modern contracting out of complete management and limited services document the growing trend toward privatization and instances of public private partnership in prison industries the assembled evidence indicates clearly that privately run prisons have shown significant cost savings and good quality of provision for prisoners while still being profitable however the authors caution that these promising results must be reinforced by public safeguards in the contracting stage and monitoring to assure good service and security with the american prison system in disarray the public interest demands that government look beyond the public or private identity of those who wish to provide correctional services and focus instead on who can provide the best services at a given cost it is essential to state that correctional services should attain several objectives and not merely cost minimization the analysis and recommendations presented here will aid in the task privatizing correctional institutions will be of interest to law enforcement officials public policy analysts penologists and criminologists

Inmate Furloughs 1973 around one in five prisoners report the previous or current incarceration of a parent many such prisoners attest to the long term negative effects of parental incarceration on one s own sense of self and on the range and quality of opportunities for building a conventional life and yet the problem of intergenerational incarceration has received only passing attention from academics and virtually little if any consideration from policy makers and correctional officials this book the first of its kind offers an in depth examination of the causes experiences and consequences of intergenerational incarceration it draws extensively from surveys and interviews with second third fourth and fifth generation prisoners to explicate the personal familial and socio economic contexts typically associated with incarceration across generations the book examines 1 the emergence of the prison as a dominant if not life defining institution for some families 2 the link between intergenerational trauma crime and intergenerational incarceration 3 the role of police courts and corrections in amplifying or ameliorating such problems and 4 the possible means for preventing intergenerational incarceration this is undeniably a book that bears witness to many tragic and traumatic stories but it is also a work premised on the idea that knowing these stories knowing that they often resist alignment with pre conceived ideas about who prisoners are or who they might become is part and parcel of advancing critical debate and more importantly of creating real change the book will be of interest to students academics and lay audiences
