public finance is crucial to a country s economic growth yet successful reform of public finances has been
rare ethiopia is an example of a country that undertook comprehensive reform of its core financial systems
independent of the imf and the world bank and successfully transformed itself into one of the fastest
growing economies in africa with ethiopia s twelve year reform as its guiding case study this book
presents new analytical frameworks to help governments develop better financial reforms it shows in detail
how four core financial systems budgeting accounting planning and financial information systems can be
reformed one of the principal findings presented is that governments must establish basic public financial
administration before moving to more sophisticated public financial management other key findings include
the identification of four strategies of reform recognize improve change and sustain the centrality of
ongoing learning to the process of reform and the importance of government ownership of reform this
book will be of interest to researchers and policymakers concerned with public finance developmental
economics and african studies
