hector macqueen had been responsible for adding scottish content since the 10th edition 2001 but decided that he would discontinue this role after the 13th edition was published in 2016 we are very grateful for hector s contributions to the work on the advice of the book s publishers this edition has been put together without the benefit of a scottish editor although we have of course continued to take decisions from the scottish courts into account in updating the various chapters since the last edition was published there have been few major developments in the law on the sale of goods aside from the difficult ruling by the supreme court in *pst energy 7 shipping llc v ow bunker malta ltd* 2016 uksc 23 which arrived too late for proper consideration in the previous edition we have updated the text in light of recent cases and academic writings where appropriate furthermore we have continued our task of streamlining the running order of the chapters and we have sought to make gentle updates to the language of the book preserving its rigour but ensuring it remains accessible to a contemporary audience in some instances we have curtailed or removed altogether the detailed discussion of the pre 1994 case law which had become redundant as a result of the changes made to the sale of goods act at that time the rise of digital technology and new business models in the digital economy will invariably have an impact on the law concerning the sale of goods but at this point the real impact is not yet known in some places we have alluded to the possible significance of digital technology and this could well become a more significant theme in future editions
