apocalyptic ruin and everyday wonder in don delillo s america is a fresh and  
engaging study of last things in don delillo s works things like death  
mourning and the decline of the american empire but then also the apocalypse  
the last judgment and the end of the world more generally michael naas  
untangles complex themes in short witty chapters that highlight and celebrate  
delillo s inventive and playful writing employing a novel approach to  
literary criticism making no use of secondary sources the book is entirely a  
discussion of delillo s work accessible to any level of readership while  
maintaining a firm grasp of the theory necessary to make this unique argument  
and yet this book is also about all the things that double or shadow those  
last things in the very same works like the wonder of language or the  
radiance of everyday events from americana 1971 up through zero k 2016 and  
the silence 2020 and perhaps like no other american author don delillo has  
created meaning by contrasting juxtaposing or as naas calls it here  
contrabanding first and last things conflicting or opposing forces such as  
life and death creation and destruction consumption and waste everyday wonder  
and apocalyptic ruin the origins of language and the end of the world in his  
adept demonstration of how delillo has returned repeatedly to these last  
things naas shows how the works of don delillo have been there for more than  
half a century to remind us of one simple and yet profound truth nothing

apocalyptic ruin and everyday wonder in don delillo s america is a fresh and engaging study of last things in don delillo s works things like death mourning and the decline of the american empire but then also the apocalypse the last judgment and the end of the world more generally michael naas untangles complex themes in short witty chapters that highlight and celebrate delillo s inventive and playful writing employing a novel approach to literary criticism making no use of secondary sources the book is entirely a discussion of delillo s work accessible to any level of readership while maintaining a firm grasp of the theory necessary to make this unique argument and yet this book is also about all the things that double or shadow those

last things in the very same works like the wonder of language or the radiance of everyday events from americana 1971 up through zero k 2016 and the silence 2020 and perhaps like no other american author don delillo has created meaning by contrasting juxtaposing or as naas calls it here contrabanding first and last things conflicting or opposing forces such as life and death creation and destruction consumption and waste everyday wonder and apocalyptic ruin the origins of language and the end of the world in his adept demonstration of how delillo has returned repeatedly to these last things naas shows how the works of don delillo have been there for more than half a century to remind us of one simple and yet profound truth nothing lasts forever
