# **Accountability and Responsiveness at the Municipal Level**

2018-07-02

in canada the quality of municipal democracy has been questioned due to three crucial factors first voter turnout tends to be significantly lower for municipal elections than it is for other levels of government second the re election rate of incumbent candidates is higher compared to provincial territorial and federal elections third corruption and other scandals have tarnished the image of local democracy are cities sufficiently capable of responding to crises and representing the interests of their residents accountability and responsiveness at the municipal level addresses these issues through qualitative and quantitative analysis focusing on some of the most important characteristics of the canadian municipal scene including the contexts of partisanship and non partisanship the careers and daily work of municipal officials and multilevel governance this volume also assists directly in the collection and dissemination of data about cities as there is currently no centralized system for capturing and organizing electoral statistics at the municipal level municipal democracy in canada suffers from a representation deficit accountability and responsiveness at the municipal level is an important first step in building high quality comparative information on the politics of canada s cities

can meaningful representation emerge in an authoritarian setting if so  
how when and why making autocracy work identifies the trade offs  
associated with representation in authoritarian environments and then  
tests the theory through a detailed inquiry into the dynamics of china  
s national people s congress npc the country s highest formal  
government institution rory truex argues that the chinese communist  
party ccp is engineering a system of representation within bounds in  
the npc encouraging deputies to reflect the needs of their  
constituents but only for non sensitive issues this allows the regime  
to address citizen grievances while avoiding incendiary political  
activism data on npc deputy backgrounds and behaviors is used to  
explore the nature of representation and incentives in this  
constrained system the book challenges existing conceptions of  
representation authoritarianism and the future of the chinese state  
consultative institutions like the npc are key to making autocracy  
work
