conradjohnson com by phone at 703 698 8581 or by fax at 703 560 5360 i purchased an ev1 i had assumed there are different dip switches for load setting i looked on cj s site and they don t post an ev1 guide which is strange but true is there anyone who has one i can get a copy from i was disappointed that cj does not have the owners manual available for download on their vintage products site if the ev1 is adjustable a good starting point would be 47kohm and lowest capacitance any loading above 1kohm will meet dv s specs and the actual capacitance is typically not a big issue for homc
