~~hundreds of clients in north america europe and the pacific rim~~  
to improve their maintenance effectiveness through a new 10  
volume maintenance strategy series the author makes his  
expertise in the field accessible to industrial and facility  
organizations everywhere the fifth volume in the series will  
highlight the need for increased skills proficiency in maintenance  
and reliability organizations today it begins with a discussion of  
the skills shortage then progresses into how to develop cost  
effective and efficient skills training programs it focuses on  
modern tools for duty task needs analysis and how to convert  
that data into a complete skills development initiative the reader  
will be able to use the information in this to develop or enhance a  
skills training program in their company consists of proceedings  
of the plant maintenance conference the power sector has  
undergone a liberalization process both in industrialized and  
developing countries involving market regimes as well as  
ownership structure these processes have called for new and  
innovative concepts affecting both the operation of existing  
hydropower plants and transmission facilities as well as the  
development and implementation of new projects at the same  
time a sharper focus is being placed on environmental  
considerations in this context it is important to emphasize the  
obvious benefits of hydropower as a clean renewable and  
sustainable energy source it is however also relevant to focus on  
the impact on the local environment during the planning and  
operation of hydropower plants new knowledge and methods  
have been developed that make it possible to mitigate the local  
undesirable effects of such projects development and operation  
of modern power systems require sophisticated technology  
continuous research and development in this field is therefore  
crucial to maintaining hydropower as a competitive and  
environmentally well accepted form of power generation consists  
of proceedings of the plant maintenance and engineering  
conference formerly plant maintenance conference r keith  
mobleby beyond decommissioning the reuse and redevelopment of
