Soaking the Middle Class 2022-07-15 extreme weather is increasing in scale and severity as global warming worsens while poorer communities are typically most vulnerable to the negative effects of climate change even well resourced communities are increasingly vulnerable as climate related storms intensify yet little is known about how middle class communities are responding to these storms and the resulting damage in soaking the middle class sociologists anna rhodes and max besbris examine how a middle class community recovers from a climate related disaster and how this process fosters inequality within these kinds of places in 2017 hurricane harvey dropped record breaking rainfall in southeast texas resulting in more than 125 billion in direct damages rhodes and besbris followed 59 flooded households in friendswood texas for two years after the storm to better understand the recovery process in a well resourced majority white middle class suburban community as such friendswood should have been highly resilient to storms like harvey yet rhodes and besbris find that the recovery process exacerbated often invisible economic inequality between neighbors two years after harvey some households were in better financial positions than they were before the storm while others still had incomplete repairs were burdened with large new debts and possessed few resources to draw on should another disaster occur rhodes

and besbris find that recovery policies were significant drivers of inequality with flood insurance playing a key role in the divergent recovery outcomes within friendswood households with flood insurance prior to harvey tended to have higher incomes than those that did not these households received high insurance payouts enabling them to replace belongings hire contractors and purchase supplies households without coverage could apply for fema assistance which offered considerably lower payouts and for government loans which would put them into debt households without coverage found themselves exhausting their financial resources including retirement savings to cover repairs which put them in even more financially precarious positions than they were before the flood the vast majority of friendswood residents chose to repair and return to their homes after hurricane harvey even this devastating flood did not alter their plans for long term residential stability and the structure of recovery policies only further oriented homeowners towards returning to their homes prior to harvey many friendswood households relied on flood damage from previous storms to judge their vulnerability and considered themselves at low risk after harvey many found it difficult to assess their level of risk for future flooding without strong guidance from federal agencies or the local government on how to best evaluate risk many residents ended up returning to potentially unsafe places as climate related disasters become more severe soaking the middle class illustrates how inequality in the united states will continue to grow if recovery policies are not fundamentally changed

The Daily Telegraph Tax Guide 2018 2018-05-03 the daily telegraph tax guide contains everything you need to know about completing a self assessment tax return for 2017 18 this is the only credible and practical guide on the market to this perennial time intensive and often stressful demand on any taxpayer whether self employed part time retired or unemployed this invaluable book is the ultimate resource that can help ensure that you are as tax efficient as possible offering practical advice timetables and examples that aim to simplify what many people view as a complex and challenging procedure taking into account all of the changes for 2017 2018 this will ensure you get your tax return completed on time and in an efficient manner saving you money down the line and avoiding a whole lot of worries with an extensive range of top tips for saving on all types of tax the daily telegraph tax guide is the essential guide to completing your 2017 2018 tax return

Bloomsbury World Englishes Volume 3: Pedagogies 2021-05-20 bloomsbury world englishes offers a comprehensive and rigorous description of the facts implications and contentious issues regarding the forms and functions of english in the world international experts cover a diverse range of varieties and topics offering a more accurate understanding of english across the globe and the various social contexts in which it plays a significant role with volumes dedicated to research paradigms language ideologies and pedagogies the collection pushes the boundaries of the field to go beyond traditional descriptive paradigms and contribute to moving research agendas forward volume 3 pedagogies addresses the teaching of english as a world language chapters in this volume consider the teaching and learning of english es from a range of perspectives and on the basis of experiences and research from many parts of the world

Forced Out 2024-02-20 central american mothers share their stories about seeking protection in the u s as extortion and killing by criminal groups soared as the abuse

and murder of women exploded and as the rule of law disintegrated in their home countries they left home to ensure their own survival and to make a future for their children increasingly depicted as a national security threat as undocumented migrants this is the story of their struggle to find a secure foothold in this country

Demography, Politics, and Partisan Polarization in the United States, 1828-2016 2019-01-21 this book examines the geography of partisan polarization or the reds and blues of the political landscape in the united states it places the current schism between democrats and republicans within a historical context and presents a theoretical framework that offers unique insights into the american electorate the authors focus on the demographic and political causes of polarization at the local level across space and time this is accomplished with the aid of a comprehensive dataset that includes the presidential election results for every county in the continental united states from the advent of jacksonian democracy in 1828 to the 2016 election in addition coverage applies spatial diagnostics spatial lag models and spatial error models to determine why contemporary and historical elections in the united states have exhibited their familiar but heretofore unexplained political geography both popular observers and scholars alike have expressed concern that citizens are becoming increasingly polarized and as a consequence that democratic governance is beginning to break down this book argues that once current levels of polarization are placed within a historical context the future does not look quite so bleak overall readers will discover that partisan division is a dynamic process in large part due to the complex interplay between changing demographics and changing politics

Innovation + Equality 2020-12-08 how to get more innovation and more equality is economic inequality the price we pay for innovation the amazing technological advances of the last two decades in such areas as artificial intelligence genetics and materials have benefited society collectively and rewarded innovators handsomely we get cool smartphones and technology moguls become billionaires this contributes to a growing wealth gap in the united states the wealth controlled by the top 0.1 percent of households equals that of the bottom ninety percent is this the inevitable cost of an innovation driven economy economist joshua gans and policy maker andrew leigh make the case that pursuing innovation does not mean giving up on equality precisely the opposite in this book they outline ways that society can become both more entrepreneurial and more egalitarian all innovation entails uncertainty there s no way to predict which new technologies will catch on therefore gans and leigh argue rather than betting on the future of particular professions we should consider policies that embrace uncertainty and protect people from unfavorable outcomes to this end they suggest policies that promote both innovation and equality if we encourage innovation in the right way our future

can look more like the cheerful techno utopia of star trek than the dark techno dystopia of the terminator

Legislative Synopsis and Digest ... General Assembly, State of Illinois 2017 the journal of international students jis an academic interdisciplinary and peer reviewed publication print issn 2162 3104 online issn 2166 3750 publishes scholarly peer reviewed articles on international students in tertiary education secondary education and other educational settings that make significant contributions to research policy and practice in the internationalization of higher education

Journal of International Students, 2018(4) 2008 the air transport industry is highly vulnerable to environmental changes as was seen when the recent covid 19 pandemic caused most airline operations to cease however for decades airlines have been collapsing around the globe as the business of managing airline operations has become stressed due to price competition this is detrimental to air carriers since air transport products and services are the same moreover it impacts other industries such as tourism hotels and restaurants which contribute to the derailment of economic and social activities thus it is essential to determine new practices and strategies that can allow air transport management to be enriched and to flourish global air transport management and reshaping business models for the new era provides a comprehensive collection of knowledge on the new era of business management on air transport it provides strategies technologies and tools used in the reshaping of the air transport business model covering topics such as customer experience robotic process automation and airline alliances this major reference work is an essential resource for airline managers supply chain specialists air transport managers students and faculty of higher education libraries researchers economists government officials and academicians

Global Air Transport Management and Reshaping Business Models for the New Era 2011 a call to arms about the broken nature of artificial intelligence and the powerful corporations that are turning the human machine relationship on its head we like to think that we are in control of the future of artificial intelligence the reality though is that we the everyday people whose data powers ai aren t actually in control of anything when for example we speak with alexa we contribute that data to a system we can t see and have no input into one largely free from regulation or oversight the big nine corporations amazon google facebook tencent baidu alibaba microsoft ibm and apple are the new gods of ai and are short changing our futures to reap immediate financial gain in this book amy webb

reveals the pervasive invisible ways in which the foundations of ai the people working on the system their motivations the technology itself is broken within our lifetimes ai will by design begin to behave unpredictably thinking and acting in ways which defy human logic the big nine corporations may be inadvertently building and enabling vast arrays of intelligent systems that don t share our motivations desires or hopes for the future of humanity much more than a passionate human centered call to arms this book delivers a strategy for changing course and provides a path for liberating us from algorithmic decision makers and powerful corporations

JavaScript 2019-03-05 weaponized whiteness by fran shor interrogates the meanings and implications of white supremacy and more specifically white identity politics from historical and sociological perspectives

The Big Nine 2018-01-01 this edited book demonstrates a new multidimensional comprehension of the relationship between war the military and civil society by exploring the global rise of paramilitary culture moving beyond binary understandings that inform the militarization of culture thesis and examining various national and cultural contexts the collection outlines ways in which a process of paramilitarization is shaping the world through the promotion of new warrior archetypes it is argued that while the paramilitary hero is associated with military themes their character is in tension with the central principals of modern military organization something that often challenges the state s perceived monopoly on violence as such paramilitization has profound implications for institutional military identity the influence of paramilitary organizations and broadly how organised violence is popularly understood

2018 CFR e-Book Title 10, Energy, Parts 200-499 2019-10-14 corbynism as a political movement is now in the ascendancy and conceivably is also on the verge of power this book provides a critical overview of what corbynism is above and beyond jeremy corbyn himself placing it within the context of populist left and right movements that have taken hold across the globe

Militarization and the Global Rise of Paramilitary Culture 2018-09-24 this handbook gathers together the state of the art on mathematical models and algorithms for imaging and vision its emphasis lies on rigorous mathematical methods which represent the optimal solutions to a class of imaging and vision problems and on effective algorithms which are necessary for the methods to be translated to practical use in various applications viewing discrete images as data sampled from functional surfaces enables the use of advanced tools from calculus functions and calculus of variations and nonlinear optimization and provides the basis of high resolution imaging through geometry and variational models besides optimization naturally connects traditional model driven approaches to the emerging data driven

approaches of machine and deep learning no other framework can provide comparable accuracy and precision to imaging and vision written by leading researchers in imaging and vision the chapters in this handbook all start with gentle introductions which make this work accessible to graduate students for newcomers to the field the book provides a comprehensive and fast track introduction to the content to save time and get on with tackling new and emerging challenges for researchers exposure to the state of the art of research works leads to an overall view of the entire field so as to guide new research directions and avoid pitfalls in moving the field forward and looking into the next decades of imaging and information services this work can greatly benefit graduate students researchers and practitioners in imaging and vision applied mathematicians medical imagers engineers and computer scientists

Corbynism 2023-02-24 a times literary supplement s book of the year 2020 a new statesman s best book of 2020 a bloomberg s best book of 2020 a guardian best book about ideas of 2020 the world renowned philosopher and author of the bestselling *Justice* explores the central question of our time what has become of the common good these are dangerous times for democracy we live in an age of winners and losers where the odds are stacked in favor of the already fortunate stalled social mobility and entrenched inequality give the lie to the american credo that you can make it if you try the consequence is a brew of anger and frustration that has fueled populist protest and extreme polarization and led to deep distrust of both government and our fellow citizens leaving us morally unprepared to face the profound challenges of our time world renowned philosopher michael j sandel argues that to overcome the crises that are upending our world we must rethink the attitudes toward success and failure that have accompanied globalization and rising inequality sandel shows the hubris a meritocracy generates among the winners and the harsh judgement it imposes on those left behind and traces the dire consequences across a wide swath of american life he offers an alternative way of thinking about success more attentive to the role of luck in human affairs more conducive to an ethic of humility and solidarity and more affirming of the dignity of work the tyranny of merit points us toward a hopeful vision of a new politics of the common good

□□□□□□□□ 2023□5□□ No.252 1971 the 2018 edition of international migration outlook analyses recent developments in migration movements and policies in oecd countries and some non member countries and looks at the evolution of the labour market outcomes of immigrants in oecd countries with a focus on the migrants job *Handbook of Mathematical Models and Algorithms in Computer Vision and Imaging* 2018 india like most democratic developing nations is prone to populist politics in the search of votes politicians look for popular solutions with mass appeal some popular solutions benefit the poor some hurt the economy poor economics leads to falling numbers falling numbers get statistically captured as economic data and the impact of such economic data is immense this data can lift or crash currency markets stock markets affect credit ratings fuel inflation affect new investments and even result in mass layoffs however there is always a story behind the data these stories are guided mostly by executive decisions some decisions are far reaching and beneficial to the masses some cater to political vote banks some are guided by increasing activism some serve the need for social justice some are aimed at

environmental protection while some are simply driven by the greed of power or wealth this is the story of every regime the book narrates this compelling data story in a layman s language even where data is wrong it leaves behind a tell tale mark of anomalies which trips the economy sooner than later fudged incorrect or lazily collected data is worse than genuine but unimpressive data as you do not know what to correct india emerging thus captures this dialogue on the pros and cons of economic and political decisions that can be understood by the common voter who is neither an economist nor an academician

Bulletin of the United States Bureau of Labor Statistics 2020-09-15 this second edition offers strategies tips and guidance on how to promote equitable student growth across content areas the essays in this book complement the work of school board members administrators and community stakeholders in school districts with diverse student populations authors offer both empirically based and auto ethnographic accounts about equity policy frameworks school counseling resource officers in urban schools trauma informed practices and bias disruptors each of the 12 essays provides templates for educators and administrators across age ranges and institution types as demographics grow more diverse school leaders will look for ideas to improve campus policy and practice the contributors to this work deliver actionable steps across departments

Forecast of Medium- and Heavy-duty Vehicle Attributes to 2030 1888 this book examines the trump phenomenon and presidency as fascist fascism here connotes not generically bad politics or a consolidated political economic regime mussolini s italy or hitler s germany but a set of political movement and ideological traits understood within the context of the neoliberal capitalist era while trump s election defeat is a respite the nation is far from out of the neofascist woods defeating the menace will require political and societal restructuring far beyond what is imagined by democrats this argument is developed across seven chapters that recount trump s assault on the 2020 election specifically define the meaning of fascism as it is used in this book demonstrate the neofascist nature of the trump presidency engage intellectual class trumpism fascism denial analyze the trump base root trumpism in a longstanding and indeed founding american white nationalism examine why trump rose to power when he did and suggest paths for fascism proofing the usa

The Tyranny of Merit 2020-01-24 why do disadvantaged students continue to get a poor deal as they progress through england s education system challenging orthodox thinking about school exclusion this book powerfully advocates for a fairer education system for disadvantaged students it argues that the current conceptualisation of exclusion physically removing the student from the school is insufficient this approach fails to recognise the layers of exclusion that these students encounter students can be excluded within their schools inner exclusion not just from school outer exclusion drawing on student experiences of exclusion and the perspectives of senior leaders including the author who is a head of school this book demonstrates how we can create a fairer education system for disadvantaged students

Biomarkers and Clinical Indicators in Motor Neuron Disease 2019-04-18 this handbook discusses the theoretical and disciplinary background to the study of english medium instruction emi in higher education worldwide it highlights issues relating to emi pedagogy varying motivations for emi education and the delivery of emi in diverse contexts across the world the spread of english as a teaching medium and the lingua franca of the academic world has been the subject of various debates in recent years on the perceived hegemony of the english language and the domain loss of non english languages in academic communication encompassing a wide range of contributions to the field of emi the chapters of this handbook are arranged in four distinct parts part i provides an overview of english medium instruction in higher education worldwide part ii focusses on emi in europe part iii on emi in the middle east north africa and sub saharan africa and part iv on emi in the asian region the overall scope and level of expertise of this handbook provides an unrivalled overview of this field of education it serves as an essential reference for many courses dealing with applied linguistics english language education multilingualism sociolinguistics and related subjects at many levels of education including master s and phd level studies this handbook serves as a valuable edition for university libraries across the world and an essential read for many faculty undergraduate and postgraduate students educators and policymakers

International Migration Outlook 2018 2023-11-20 an essential guide to the intractable public debates about the virtues and vices of economic globalization cutting through the complexity to reveal the fault lines that divide us and the points of agreement that might bring us together globalization has lifted millions out of poverty globalization is a weapon the rich use to exploit the poor globalization builds bridges across national boundaries globalization fuels the populism and great power competition that is tearing the world apart when it comes to the politics of free trade and open borders the camps are dug in producing a kaleidoscope of claims and counterclaims unlikely alliances and unexpected foes but what exactly are we fighting about and how might we approach these issues more productively anthea roberts and nicolas lamp cut through the confusion with an indispensable survey of the interests logics and ideologies driving these intractable debates which lie at the heart of so much political dispute and decision making the authors expertly guide us through six competing narratives about the virtues and vices of globalization the old establishment view that globalization benefits everyone win win the pessimistic belief that it threatens us all with pandemics and climate change lose lose along with various rival accounts that focus on specific winners and losers from china to america's rust belt instead of picking sides six faces of globalization gives all these positions their due showing how each deploys sophisticated arguments and compelling evidence both globalization's boosters

and detractors will come away with their eyes opened by isolating the fundamental value conflictsÑgrowth versus sustainability efficiency versus social stabilityÑdriving disagreement and show where rival narratives converge roberts and lamp provide a holistic framework for understanding current debates in doing so they showcase a more integrative way of thinking about complex problems

India Emerging 2021-12-28 with the advent of the internet and handheld or wearable media systems that plunge the user into 360o video augmented or virtual reality technology is changing how stories are told and created in this book john v pavlik argues that a new form of mediated communication has emerged experiential news experiential media delivers not just news stories but also news experiences in which the consumer engages news as a participant or virtual eyewitness in immersive multisensory and interactive narratives pavlik describes and analyzes new tools and approaches that allow journalists to tell stories that go beyond text and image he delves into developing forms such as virtual reality haptic technologies interactive documentaries and drone media presenting the principles of how to design and frame a story using these techniques pavlik warns that although experiential news can heighten user engagement and increase understanding it may also fuel the transformation of fake news into artificial realities and he discusses the standards of ethics and accuracy needed to build public trust in journalism in the age of virtual reality journalism in the age of virtual reality offers important lessons for practitioners seeking to produce quality experiential news and those interested in the ethical considerations that experiential media raise for journalism and the public

Equity Planning for School Leaders 2024-04-11 this book makes an original contribution to our knowledge of the world s major defence industries experts from a wide range of different countries from the major economies of north america and western europe to developing economies and some unique cases such as china india singapore south africa and north korea describe and analyse the structure conduct and performance of the defence industry in that country each chapter opens with statistics on a key nation s defence spending its spending on defence r d and on procurement over the period 1980 to 2017 allowing for an analysis of industry changes following the end of the cold war after the facts of each industry the authors describe and analyse the structure conduct and performance of the industry the analysis of structure includes discussions of entry conditions domestic monopoly oligopoly structures and opportunities for competition the section on conduct analyses price non price competition including private and state funded r d and performance incorporates profitability imports and exports together with spin offs and technical progress the conclusion explores the future prospects for each nation s defence industry do defence industries have a future what might the future defence firm and industry look like in 50 years time this volume is a vital resource and reference for anyone interested in defence economics industrial economics international relations strategic studies and public procurement

This Happened Here 1997 the oecd teaching and learning international survey talis is the largest international survey asking teachers and school leaders about their working conditions and learning environments and provides a barometer of the profession every five years results from the 2018 cycle explore and examine the various dimensions of teacher and school leader professionalism across education

systems

Educational Collateral Damage 2024-02-05 this book provides a critical understanding of the challenges that exist in protecting the local and global environment through compliance efforts using existing environmental regulations the best compliance measures with the most useful regulations from over 50 countries are surveyed and are combined with science based quantitative analysis of geology hydrogeology and the chemistry of contaminants from anthropogenic sources the results are presented as a model that establishes a means by which protection of the environment can be greatly improved this is accomplished through a deeper understanding of our natural world and how anthropogenic activities and their management affect our planet features the first book that examines the successes of environmental regulation worldwide and highlights the areas that need improvement presents a tested and verified scientific model for enhanced environmental protection with scalability from local parcels to global levels describes and integrates the importance of understanding the geologic and hydrogeologic environment of urban and developed areas explains the importance of understanding the different types of pollution and their behavior in the environment identifies the need for consistency in banning chemicals that are harmful in not just one country but throughout the world
