Regeneration of Calcium Sulfate from Fluid Bed Combustion of Coal

1978

radio frequency identification rfid is a modern wireless data transmission and reception technique for applications including automatic identification asset tracking and security surveillance this book focuses on the advances in rfid tag antenna and asic design novel chipless rfid tag design security protocol enhancements along with some novel applications of rfid

Probable Maximum and TVA Precipitation Over the Tennessee River Basin Above Chattanooga

1965

advances in computational power have facilitated the development of simulations unprecedented in their computational size scope of technical issues spatial and temporal resolution complexity and comprehensiveness as a result complex structures from airplanes to bridges can be almost completely based on model based simulations this book gives

Hydrometeorological Report

1965

this issue of the neurologic clinics is dedicated to the cerebellum and

includes articles on its functional neuroanatomy and different cerebellar pathologies among the various reviews contained in this issue there are two particularly unique articles devoted to the role of the cerebellum in human cognition and psychiatric diseases other topics include the cerebellum and sleep toxic metabolic nutritional and medicinal induced disorders of cerebellum multiple sclerosis and the cerebellum and infections of the cerebellum among others

Meteorology of Hydrologically Critical Storms in California

1962

this third edition of a classic text in biological microscopy includes detailed descriptions and in depth comparisons of parts of the microscope itself digital aspects of data acquisition and properties of fluorescent dyes the techniques of 3d specimen preparation and the fundamental limitations and practical complexities of quantitative confocal fluorescence imaging coverage includes practical multiphoton photodamage and phototoxicity 3d fret 3d microscopy correlated with micro mnr cars second and third harmonic signals ion imaging in 3d scanning raman plant specimens practical 3d microscopy and correlated optical tomography

Report

1937

in this volume the geologic and planetary science communities explore impact events and how they affected the evolution of earth and other planetary bodies these papers are the outcome of a conference held every five years
