Kar-Kraft 2017-06-15 the story of kar kraft began as did many others in the automotive industry with an axe to grind in 1963 ford was seriously interested in purchasing ferrari ferrari was a legendary brand with considerable success in racing and ford saw the acquisition as a great way to be instantly successful in the racing arena when enzo ferrari realized that ford would not give him complete control of the racing program he backed out of the deal late in the process ford had spent millions in vetting and audits which then set in motion a vengeful response against ferrari the result was the unthinkable ford beat ferrari at le mans ford wanted to become competitive quickly but it did not have the race history or resources in house to remedy the situation ford searched the u k for an independent company to help accelerate its race car development it first settled on lola cars and set up ford advanced vehicles later ford brought its lemans effort to the u s and the kar kraft relationship was established although kar kraft was technically an independent company it really only had one customer ford special vehicles kar kraft s story doesn t begin and end with the gt 40 that took the win away from ferrari at le mans ford expanded upon the program and organized an all out assault on racing in general cars were prepared for trans am nascar nhra and can am competition street versions of the boss 429 were assembled under its roof and fabled prototypes including the lid mustang boss 302 maverick and mach 2c were all assembled in ford s contracted race shop and then out of the blue its doors closed for good on a cold day in 1970 history tells us that ford won le mans the daytona 500 and the trans am championship but it doesn t tell us how this was accomplished author charlie henry a former kar kraft employee has enlisted the help of many of his former co workers to bring you the very first book ever published on ford s all encompassing special projects facility kar kraft p p1 margin 0 0px 0 0px 0 0px 0 0px font 12 0px arial

American Cars, 1966-1972 2023-11-20 the automotive industry underwent great change in the 1960s and the early 1970s the continuing trend toward market consolidation the proliferation of sizes and nameplates and the need for speed characterized this period loosely labeled as the muscle car era this is an exhaustive reference work to american made cars of model years 1966 1972 organized by year and summarizing the market annually it provides a yearly update on each make s status and production figures then details all models offered for that year model listings include available body styles base prices engine and transmission choices power ratings standard equipment major options and their prices curb weight and dimensions interior and exterior paint color choices changes from the previous year s model and sales figures also given are assembly plant locations and historical overviews of each model nameplate

American Cars, 1973-1980 2012-12-17 the 1973 oil crisis forced the american automotive industry into a period of dramatic change marked by stiff foreign competition tougher product regulations and suddenly altered consumer demand with gas prices soaring and the economy in a veritable tailspin muscle cars and the massive need for speed engines of the late 60s were out and fuel efficient compacts were in by 1980 american manufacturers were churning out some of the most feature laden yet smallest and most fuel efficient cars they had ever built this exhaustive reference work details every model from each of the major american manufacturers from model years 1973 through 1980 including various captive imports e g dodge s colt built by mitsubishi within each model year it reports on each manufacturer s significant news and details every model offered its specifications powertrain offerings prices standard features major options and production figures among other facts the work is heavily illustrated with approximately 1 300 photographs
