Leading Professional Development 2011-07-16 while there is a broad spectrum of ecological sophistication within libraries nationwide and some regions are at the forefront of sustainable of sustainable design and operations others are just beginning or have yet to integrate materials recycling into their daily practice a few jurisdictions are mandating leed certified buildings and carbon neutral practices while others do not yet have these concepts on their radars

The National Road and the Difficult Path to Sustainable National Investment 2021-07-02 this book serves the purpose of documenting and promoting african experiences on sustainable development which encompasses both formal and non formal education sustainable development is very important to africa but there is a paucity of publication which documents and promotes experiences from african countries due to their complexity the interrelations between social economic and political factors related to sustainable development especially at universities need to be better understood there is also a real need to showcase successful examples of how african institutions are handling their sustainability challenges it is against this background that this book has been produced it is a truly interdisciplinary publication useful to scholars social movements practitioners and members of governmental agencies and private companies undertaking research and or executing projects focusing on sustainability from across africa as african nations strive to pursue the un sustainable development goals it is imperative to cater for the information needs seen across the continent and foster the dissemination of experiences and case studies which may support both on going and future efforts the scope of the book is deliberately kept wide and we are looking for contributions across the spectrum of sustainable development from business and economics to arts and fashion administration environment languages and media studies

Libraries, Digital Information, and COVID 2009-01-01 robert lajeunesse looks beyond the 20th century arguments for shortening the work week he writes a careful convincing critique of traditional full employment policies in advocacy of an alternative macroeconomic paradigm with an emphasis on greater socioeconomic participation the author proposes a policy of work time

regulation that is not only appropriate for a 21st century post industrial economy but speaks to concerns about balancing work and family environmental sustainability stabilizing incomes and prices and social and economic well being through its unique conceptualization of employment relations as a social effort bargain this book proposes that governments can achieve egalitarian and sustainable macroeconomic objectives by regulating work hours equally important to achieving sustainable full employment and price stability work time regulation offers the capability for citizens living in an age of abundance to define themselves as something other than paid employees work time reform represents a first step in a process of enlightenment in which workers will create an identity through the whole of their relationships at work home community and at play there is certainly a role for government in fostering the pursuit of loftier ideals subsequent to a redistribution of work time but the first precondition for enhanced human development is greater socioeconomic participation which means more paid work for some and less for others in addition to students and researchers in economics sociology and political science this book will be of interest to policy makers policy analysts labour unionists environmentalists and other social reformers
