American Directory of Writer's Guidelines 2007-02 the encounter between
muslim and hindu remains one of the defining issues of south asian
society today it began as early as the 8th century and the first muslim
kingdom in india the sultanate of delhi was established at the end of the
12th century this power eventually reduced to vassalage almost every
independent kingdom on the subcontinent in love s subtle magic a
remarkable and highly original book aditya behl uses a little understood
genre of sufi literature to paint an entirely new picture of the evolution of
indian culture during the earliest period of muslim domination these
curious romantic tales transmit a profound religious message through the
medium of adventurous stories of love although composed in the muslim
courts they are written in a vernacular indian language and involve hindu
yogis hindu princes and princesses and hindu gods until now they have
defied analysis behl shows that the sufi authors of these charming tales
sought to convey an islamic vision via an indian idiom they thus constitute
the earliest attempt at the indigenization of islamic literature in an indian
setting more important however behl s analysis brilliantly illuminates the
cosmopolitan and composite culture of the sultanate india in which they

were composed this in turn compels us completely to rethink the start (pap)

of the opposition between indian hindu and foreign muslim and recognize
that the indo islamic culture of this era was already significantly indian in
many important ways

s robinson crusoe 1719 has had an enduring and widespread impact becoming a universal myth this volume offers various approaches to the rewriting of the desert ed island myth of the novel its originality comes from the time range covered as its focus ranges from medieval proto robinsonades to twentieth century cinematic adaptations it begins with an exploration of robinsonades written before robinson crusoe prompting discussion about the label robinsonade and why critics have seen defoe s narrative as the hypotext of the genre robinson crusoe can only be understood in the context of the imperial expansion of britain in the 18th century and the rise of capitalism but robinsonades adapt to the audiences they address at the turn of the 19th century despite the changing context and the increasingly unrealistic claim that one could be stranded on a desert island fertile enough for rebuilding a new life and civilization the myth of robinson resurfaced in r l stevenson s and joseph conrad s fictions the 19th century was also marked by industrial revolution progress and scientism and the authors who wrote robinsonades at that period witnessed how those developments changed the world the volume includes a discussion of jules verne s work as a critical perspective on colonial narratives and deals with transmedial and transgeneric

depictions of such narratives in literature cinema and television finally the volume proposes a topical approach to the genre by focusing on the link between literature and the environment and how the robinsonade can awaken people s consciences and help make a difference in the world bearing in mind the idea that robinsonades can be wake up calls the epilogue of this volume offers a very original comparison between the robinsonade and the political situation in great britain regarding europe
