Guide to Reference Books 1996 presents an annotated bibliography of general and subject reference books covering the humanities social and behavioral sciences history science technology and medicine

Maternal and Child Health 2009-10-03 our current era of globalization war and socioeconomic unrest has revealed public health as a worldwide concern and a major frontier for social justice with maternal and child health at its epicenter yet there has been a relative scarcity of training resources specifically dedicated to this crucial area maternal and child health global challenges programs and policies addresses this gap in current knowledge by analyzing the range of socioeconomic and environmental factors health care disparities politics policies and cultural practices that impact the health and safety of mothers as well as the well being and optimum development of their children individual sections focus on unequal distribution of the world s resources politics and power specific disease concerns programs policies and emerging concerns with a focus on what is currently being done and what needs to be done to improve the health status of women children and adolescents the book s contributors are some of the world s most respected experts carefully selected to represent different global geographic regions and diverse professional disciplines related to maternal and child health from both academic and field practice perspectives among the topics in this authoritative volume the impact of war globalization gender inequity and harmful traditional practices e g female genital mutilation specific health concerns including tuberculosis malaria hiv and malnutrition child and adolescent health issues from abuse and neglect to children in difficult circumstances pregnancy related issues safety abortion and post abortion care teen pregnancy and more strategies for planning developing and maintaining maternal and child health systems in developing countries the status of global initiatives such as integrated management of childhood illnesses and the millennium development goals the status of evidence based maternal and child health in the developing world with such a wealth of information on both practical and conceptual levels maternal and child health global challenges programs and policies is as relevant to students and researchers in the field as it is to policy makers and those working for global health and development organizations it also makes an excellent stand alone text for courses in global health in general and global maternal and child health in particular

Empirical Direction in Design and Analysis 2001-07-01 the goal of norman h anderson s new book is to help students develop skills of scientific inference to accomplish this he organized the book around the experimental pyramid six levels that represent a hierarchy of considerations in empirical investigation conceptual framework phenomena behavior measurement design and statistical inference to facilitate conceptual and empirical understanding anderson de emphasizes computational formulas and null hypothesis testing other features include emphasis on visual inspection as a basic skill in experimental analysis to help students develop an intuitive appreciation of data patterns exercises that emphasize development of conceptual and empirical application of methods of design and analysis and de emphasize formulas and calculations and heavier emphasis on confidence intervals than significance tests the book is intended for use in graduate level experimental design research methods or statistics courses in psychology education and other applied social sciences as well as a professional resource for active researchers the first 12 chapters present the core concepts graduate students must understand the next nine chapters serve as a reference handbook by focusing on specialized topics with a minimum of technicalities

Recording for the Blind & Dyslexic, ... Catalog of Books 1996 vols for 1910 56 include convention proceedings of various insurance organizations
