how they view the actions of their peers and colleagues we can pass laws and enact regulations so that those physicians that do choose to focus on ethics won't be in an environment where they feel as if they are swimming against too strong a current to make meaningful change but ultimately a profession has to take responsibility for its own integrity

the church's relationship with depression has been fraught for centuries depression was assumed to be evidence of personal sin or even demonic influence the depressed have often been ostracized or institutionalized in recent years the conversation has begun to change and the stigma has lessened but as anyone who suffers from depression knows we still have a long way to go in companions in the darkness diana gruver looks back into church history and finds depression in the lives of some of our most beloved saints including martin luther charles spurgeon mother teresa and martin luther king jr without trying to diagnose these figures from a distance gruver tells their stories in fresh ways taking from each a particular lesson that can encourage or guide those who suffer today drawing on her own experience with depression gruver offers a wealth of practical wisdom both for those in the darkness and those who care for them not only can these saints teach us valuable lessons about the experience of depression they can also be a source of hope and empathy for us today they can be our companions in the darkness
