the publication of the red badge of courage in 1895 brought stephen crane instant fame at age 23 at 28 he was dead in the brief span of his literary career crane enjoyed a significant measure of renown as well as notoriety but his reputation rested almost entirely upon his war novel and he felt that his talent had ultimately been misjudged from his adolescence until his death crane was a professional journalist to this day most educated american readers know him

only as the author of the most realistic civil war novel ever written three or four action packed short stories and a handful of iconoclastic free verse poems crane was befriended and admired by some of the most important literary figures of his time such as william dean howells willa cather joseph conrad henry james and h g wells he has also been called a realist a naturalist an impressionist a symbolist and an existentialist this reference book provides a more complete picture of crane s short but furiously creative life and encourages a more extensive appreciation of his works the volume includes hundreds of entries for members of crane s immediate and extended family close friends and associates educational institutions that he attended places where he resided publishers and syndicates by whom he was employed literary movements with which he is usually associated and the works of fiction poetry and journalism that he wrote thus the book shows that he was a pioneer in the development of a number of genres in modern american fiction and poetry that he was the first literary chronicler of the burgeoning slums of urban america who refused to sentimentalize his materials that his western stories reveal the steady retreat of the american frontier before the encroachments of a modern europeanized civilization and that his short stories and poems engage a number of enduring themes many of the entries cite works for further reading and the volume includes a chronology and a bibliography of the most important studies of his life and writing

as of october 2008 liner shipping companies lose their privileged status under eu competition law due to withdrawal of the liner conference block exemption which generously authorized horizontal price fixing and similar agreements between liner shipping companies where the liner consortia block exemption does not apply all cooperative activity should be carefully and individually assessed under the competition provisions of the ec treaty alla pozdnakova has taken this opportunity to research and write an in depth study of competition law problems in the liner shipping context her analysis is not only the first to examine the new european regime and thus the most up to date study of the subject it is in fact the first major independent study of how articles 81 and 82 ec are construed and applied to the market conduct of liner shipping companies in particular the author addresses the following legal questions does cooperation between liner shipping companies infringe article 81 1 even if it does not entail hard core restrictions of competition can a cooperative arrangement between liner shipping companies claim that the efficiencies they produce outweigh the negative impact on competition article 81 3 when do certain market strategies of liner carriers become an abuse of a collective or individual dominant position article 82 does parallel pricing behaviour infringe ec treaty competition rules systematically the author considers various market strategies of liner shipping companies and tests them as to their compatibility with ec treaty competition

---

provisions in doing so she thoroughly analyses european commission decisions and judgments of the european courts applying them authoritatively to the liner shipping sector in this way her book provides a well structured account that clearly identifies the legal issues that liner shipping companies are likely to face once the special treatment traditionally allowed them is withdrawn a summary of current and prospective developments in eu competition regulation and policy in liner shipping rounds up the analysis liner shipping and eu competition law will be a unique and powerful resource for practitioners and policymakers as liner shipping companies restructure their agreements and market strategies to accommodate loss of the block exemption it is also sure to become a definitive analysis of the legal identity of the liner shipping market sector under european competition law
