this monograph examines the fundamental argument that america s adversaries are shifting more toward irregular methods due to the demonstrated prowess of the u s military at conventional warfare this argument is based on what one might call a paradoxical logic not unlike

that described by Edward Luttwak in his classic work *Strategy* among other things the monograph concludes that few genuine paradoxes exist in war most principles that appear paradoxical are completely linear moreover those adversarial states and nonstate actors employing irregular methods today were doing so long before the U.S. military demonstrated its superiority at conventional warfare and will likely continue to do so

In the era of identity politics whose is the I of cultural criticism and what does the invention of an autobiographical persona have to do with contemporary theory in *Getting Personal* Nancy K. Miller reflects upon the ways in which contingencies of identity and location shape the writing of academic argument and the living of an academic life *Getting Personal* explores the new territory of feminist cultural studies and its connections to literary interpretation the book is organized around a number of academic scenes in which Miller analyses the stakes of feminist critical performance the focus on occasions from the conference to the seminar to the professional colloquium produces an autobiographical perspective on the mini drama of institutional politics whether faculty struggles over the canon in elite universities or student strivings for self authorization in large urban ones writing as a feminist critic Miller describes the dilemmas of a responsible pedagogic practice the contradictory demands of authority and complicity for a feminist teacher of literature *Getting Personal* examines the rhetorical strategies of

a feminism traversed by internal debates over its own self representations working through and among quotations of voices that might otherwise not address each other miller assesses a crisis and offers a project for moving on

Preparing for One War and Getting Another? 1895

how do individuals societies and nations deal with their difficult pasts getting history right examines this question in a comparative context by looking at an authoritarian east germany and a pluralistic democratic west germany eschewing a narrow focus on elites this work draws extensively on societal level discussions of the past in popular culture such as film television radio and newspapers it examines how societal level discussions of the past shaped individual perceptions and interpretations of the past and how individual perceptions and struggles over the meaning of the past shaped societal level discussions these struggles over meaning and getting history right are not only shaped by political power but are also a source of symbolic power to understand political life scholars must embrace not only material political power but also the symbolic and cultural roots of power the research presented here makes extensive use of public opinion data cinema attendance and television viewer data as well as other sources to look at the multiple meanings that east and west germans assigned to the holocaust and world war ii across time rather than culture merely being an extension of political power this work argues that culture and the boundaries of the cultural matrix shape the use of political power by different social actors getting history right is not only a reflection of political power it is a source of power itself

some will be shocked to find out that the united states and ho chi minh our nemesis for much of the vietnam war were once allies indeed during the last year of world war ii american spies in indochina found themselves working closely with ho chi minh and other anti colonial factions compelled by circumstances to fight together against the japanese dixee bartholomew feis reveals how this relationship emerged and operated and how it impacted vietnam s struggle for independence the men of general william donovan s newly formed office of strategic services closely collaborated with communist groups in both europe and asia against the axis enemies in vietnam this meant that oss officers worked with ho chi minh and the viet minh whose ultimate aim was to rid the region of all imperialist powers not just the japanese ho for his part did whatever he could to encourage the oss s negative view of the french who were desperate to regain their colony revealing details not previously known about their covert operations bartholomew feis chronicles the exploits of these allies as they developed their network of informants sabotaged the japanese occupation s infrastructure conducted guerrilla operations and searched for downed american fliers and allied pows although the oss did not bring ho chi minh to power bartholomew feis shows that its apparent support for the viet minh played a significant symbolic role in helping them fill the power vacuum left in the wake of japan s surrender her study also hints that had america continued to champion the anti colonials and their quest for independence rather than caving in to the french we might have been spared our long and very lethal war in vietnam based partly on interviews with surviving oss agents who served in vietnam bartholomew feis s engaging narrative and compelling insights speak to the yearnings of an oppressed people and remind us that history does indeed make strange bedfellows
