2015-06-29 continued low energy prices and three years of recession have significantly widened fiscal deficits absent consolidation fiscal balances and public debt are projected to be on an unsustainable medium term trajectory the external balance assessment indicates the currency remains overvalued together with low prices and weak output in the energy sector this has considerably widened the current account deficit these large current account deficits have been financed by official borrowing private capital inflows and some reserve losses thus starting to rapidly erode a large positive foreign asset position that said reserve losses have been limited by the rationing of foreign exchange which however has led to persistent and highly distortionary shortages in the foreign exchange f x market monetary policy has been on hold on concerns that lower interest rates would exacerbate pressures in the foreign exchange f x market where shortages are already widespread

2015-09-11 this edited volume sheds new light on the impact of rapid land use cover changes lu cc on greenhouse gases ghg s and aerosol emissions in south and southeast asia several countries in south southeast asia have the highest population growth rates in the world which is the main cause for lu cc conversion of dense forests to agricultural areas and then to residential and urban areas is most commonly observed in south southeast asian countries with a significant release of ghg s and aerosols the book showcases several case studies on the use of remote sensing and geospatial technologies to quantify biomass burning and air pollution impacts aerosol pollution lu cc and impacts on ecosystem services the book also includes articles on regional initiatives in research capacity building and training the authors of this book are international experts in the field and their contributions highlight significant drivers and impacts of air pollution in south southeast asia readers will discover the latest tools and techniques in particular the use of satellite remote sensing and geospatial technologies for quantifying ghg s aerosols and pollution episodes in this region

2015-06-06 the first edition of this manual containing information about the bilamellar tarsal rotation procedure for entropion trichomatous trichiasis tt was published by the world health organization who in 1993 the second edition published by who in 2015 updated the original material on the bilamellar tarsal rotation procedure and incorporated material from two other manuals on the posterior lamellar tarsal rotation modified trabut procedure and the final assessment of candidate tt surgeons this third edition updates the definition of tt to that agreed at the fourth global scientific meeting on trachoma geneva 27 29 november 2018 adds a description about how to examine for entropion refines the lists of instruments and consumables required for surgery expands and improves the guidance on post operative care includes updated illustrations refines the

presentation throughout and removes redundant material the manual is designed to provide specific information for tt trainers who are training others to undertake surgery for tt it is divided into two parts part one covers the specific skills required for training tt surgeon candidates and serves as a resource document each section begins with one or more specific learning objectives most include practice exercises trainers can use this manual as a guide for creating training presentations use it in other ways to assist in training or elect to have trainees read the material directly the manual contains both knowledge that should be imparted during training and a description of the skills to be developed and assessed during practice and surgery sessions part two is designed only for the trainers of the surgeon trainees and covers selection and final assessment of the trainees

The Professional Counselor's Desk Reference, Second Edition 2015-08-21 this book comprises the proceedings of the 26th international conference on hydraulics water resources and coastal engineering hydro 2021 focusing on broad spectrum of emerging opportunities and challenges in the field of soft computing and geospatial techniques in water resources engineering it covers a range of topics including but not limited to satellite derived data for hydrologic applications gis and rs applications in water resources management rainfall and streamflow prediction hydro informatics data driven and artificial intelligent based hydrological modelling optimization of water resources systems etc presenting recent advances in the form of illustrations tables and text it offers readers insights for their own research in addition the book addresses fundamental concepts and studies in the field of soft computing and geospatial techniques in water resources engineering making it a valuable resource for both beginners and researchers wanting to further their understanding of hydraulics water resources and coastal engineering

**Trainer's Guide** 1981 this book presents peer reviewed papers based on the oral and poster presentations during the 5th international conference on renewable energy sources which was held from june 20 to 22 2018 in krynica poland the scope of the conference included a wide range of topics in renewable energy technology with a major focus on biomass solar energy and geothermal energy but also extending to heat pumps fuel cells wind energy energy storage and the modelling and optimization of renewable energy systems this edition of the conference had a special focus on the role of renewable energy in the reduction of air pollution in the eastern european region traditionally this conference is a unique occasion for gathering polish and international researchers perspectives on renewable energy sources and furthermore of balancing them against governmental policy considerations accordingly the conference offered also panels to discuss best practices and solutions with local entrepreneurs and federal government bodies the meeting attracts not only scientist but also industry representatives as well as local and federal government personnel in 2018 the conference was organized by the university of agriculture in krakow in cooperation with agh university of science and technology krakow university of  $\square$ ilina silesian university of technology international commission of agricultural and biosystems engineering cigr and polish society of agricultural engineering honorary auspices were given by the ministry of science and higher education republic of poland rector of the university of agriculture in krakow and rector of the agh university of science and technology

**MOS 31N, Tactical Circuit Controller, Skill Levels 1, 2, and 3** 1981 recipient of the 2017 most promising new textbook award from the textbook academic authors association taa chronologically organized lifespan development lives in context offers a unique perspective on the field by focusing on the importance of context examining how the places sociocultural environments and ways in which we are raised influence who we become and how we grow and change author tara l kuther integrates cutting edge and classic research throughout the text to present a unified story of developmental science and its applications to everyday life robust pedagogy student friendly writing and an inviting design enhance this exciting and inclusive exploration of the ways in which context informs our understanding of the lifespan

Trinidad and Tobago 2017-11-21 model uncertainties in foundation design is unique in the compilation of the largest and the most diverse load test databases to date covering many foundation types shallow foundations spudcans driven piles drilled shafts rock sockets and helical piles and a wide range of ground conditions soil to soft rock all databases with names prefixed by nus are available upon request this book presents a comprehensive evaluation of the model factor mean bias and coefficient of variation cov for ultimate and serviceability limit state based on these databases these statistics can be used directly for aashto lrfd calibration besides load test databases performance databases for other geo structures and their model factor statistics are provided based on this extensive literature survey a practical three tier scheme for classifying the model uncertainty of geo structures according to the model factor mean and cov is proposed this empirically grounded scheme can underpin the calibration of resistance factors as a function of the degree of understanding a concept already adopted in the canadian highway bridge design code and being considered for the new draft for eurocode 7 part 1 en 1997 1 202x the helical pile research in chapter 7 was recognised by the 2020 asce norman medal

*Land-Atmospheric Research Applications in South and Southeast Asia* 2018-03-26 this book presents various multi criteria analysis methods for sustainability oriented analysis and decision making for energy systems under various different conditions and scenarios it presents methodologies to answer the questions relating to which of the options are the most sustainable among the alternatives and how multi criteria decision analysis methods can be used to select the most sustainable energy systems a systematic innovative methodological framework is presented which enables the most appropriate energy system to be selected under different conditions including scientific decision support tools for sustainable energy system selection fuzzy grey and rough sets based multi criteria decision analysis decision making models under uncertainties and the combination of life cycle thinking and multi criteria decision analysis this book is of interest to researchers engineers decision makers and postgraduate students within the field of energy systems sustainability and multi criteria decision analysis

General aviation airplane structural crashworthiness user's manual 1978 this book explores the most important aspects of the biology ecology and management of what is one of the world s worst weeds originally regarded as a major weed in australia and india parthenium weed is now widespread in around 48 countries in africa asia and the south pacific and has the potential to spread to new countries in africa asia and europe this book which is a collective effort by 27 members of the international parthenium weed network addresses research and knowledge gaps for different countries it examines the weed s mode of spread its impact on agricultural production its effect on the environment and on human health and its management using biological control as well as cultural physical and chemical approaches it also considers the coordination of the weed s management possible uses for parthenium weed its present distribution and how this is impacted by climate change this book includes a detailed analysis of parthenium weed biology experiences with parthenium weed worldwide an explanation of practical management options this book will be of interest to graduate students and researchers in universities and institutes in the fields of plant ecology botany agriculture conservation and restoration ecology

Scientific and Technical Aerospace Reports 1982 this volume provides a comprehensive introduction to the translation process research database tpr db which was compiled by the centre for research and innovation in translation and technologies critt the tpr db is a unique resource featuring more than 500 hours of recorded translation process data augmented with over 200 different rich annotations twelve chapters describe the diverse research directions this data can support including the computational statistical and psycholinguistic modeling of human translation processes in the first chapters of this book the reader is introduced to the critt tpr db this is followed by two main parts the first of which focuses on usability issues and details of implementing interactive machine translation it also discusses the use of external resources and translator information interaction the second part addresses the cognitive and statistical modeling of human translation processes including co activation at the lexical syntactic and discourse levels translation literality and various annotation schemata for the data

**Trichiasis surgery for trachoma** 2024-05-01 approaches to water sensitive urban design potential design ecological health economics policies and community perceptions covers all aspects on the implementation of sustainable storm water systems for urban and suburban areas whether they are labeled as wsud low impact development lid green infrastructure gi sustainable urban drainage systems suds or the sponge city concept these systems and approaches are becoming an integral part of developing water sensitive cities as they are considered very capable solutions in addressing issues relating to urbanization climate change and heat island impacts in dealing with storm water issues the book is based on research conducted in australia and around the world bringing in perspectives in an ecosystems approach a water quality approach and a sewer based approach to stormwater all of which are uniquely covered in this single resource presents a holistic examination of the current knowledge on wsud and storm water including water quality hydrology social impacts economic impacts ecosystem health and implementation guidelines includes additional global approaches to wsud including suds lid gi and the sponge city concept covers the different perspectives from australia ecosystem based the usa water quality based and europe sewer based addresses storm water management during the civil construction stage when much of the ecological damage can be done
