business and politics he reveals the way words numbers  
and images are intentionally distorted for public  
consumption by some of this country s major industries  
including tobacco companies airlines financial institutions  
public relations firms and even medical practices and  
universities and offers outrageous examples of some of the  
more egregious assaults on the public trust showing readers  
how to spot potentially false claims he offers advice about  
what we can do to stop them with an annotated list of  
publications individuals and organizations dedicated to  
preventing the spread of misleading information whether it  
is paragraph length footnotes microscopic print or tortured
