Rugby World Cup 1987 - 2019: Complete Results and Statistics 2019-11-03 south africa s victory over england in the yokohama final brought to close a thrilling 2019 rugby world cup this 443 page book is a statistical record of every match played in the nine world cups since 1987 and then concentrates on the 2019 tournament with each pool and knock out phase match full information on the worldwide qualifying competitions each country s squads followed by records from both the 2019 tournament and across history of the competition

Accurate Results in the Clinical Laboratory 2019-07-20 accurate results in the clinical laboratory a guide to error detection and correction second edition provides a comprehensive review of the factors leading to errors in all areas of clinical laboratory testing this trusted guide addresses interference issues in all laboratory tests including patient epigenetics processes of specimen collection enzymes and biomarkers clinicians and laboratory scientists will both benefit from this reference that applies discussions to both accurate specimen analysis and optimal patient care hence this is the perfect reference for clinical laboratorians from trainees to experienced pathologists and directors provides comprehensive coverage across endocrine oncology hematology immunohistochemistry immunology serology microbiology and molecular testing includes new case studies that highlight clinical relevance and errors to avoid highlights the best titles published within a variety of medical specialties reviewed by medical librarians and content specialists with key selections compiled in their annual list

Ten Years of TerraSAR-X-Scientific Results 2019-04-16 this special issue is a collection of papers addressing the scientific use of data acquired in the course of the terrasarsar x mission 10 years after launch the articles deal with the mission itself the accuracy of the products with differential interferometry and with applications in the domains cryosphere oceans wetlands and urban areas

From reference levels to results reporting: REDD+ under the UNFCCC 2018-09-18 the aim of this publication is to inform countries about the latest developments in the measurement reporting and verification for reducing emissions from deforestation and forest degradation and the role of sustainable management of forests conservation and enhancement of forest carbon stocks known as redd it provides an update on forest reference emission levels frel frls and redd results submitted to the united nations framework convention on climate change unfccc the report illustrates the choices that countries made when they constructed their frel frls and areas for improvement identified during technical assessments the report also provides an update of the evolving context of redd including a summary of the green climate fund s recently approved pilot programme for results based payments for redd as of early 2018 the following redd measurement reporting and verification milestones had been achieved thirty four countries had submitted 38 frel frls to the unfccc for technical assessment the unfccc had published 22 frel frl technical assessment reports and a further 16 technical assessments were ongoing four countries had reported redd results to the unfccc through five redd results submissions in the redd technical annex of their biennial update reports totalling more than 6 billion tonnes of carbon dioxide equivalent in emission reductions mostly in brazil all five technical analyses of redd results had been completed eighty eight percent of the countries that had submitted frel frls had completed or were establishing national forest inventories

OECD Handbook on the Compilation of Household Distributional Results on Income, Consumption and Saving in Line with National Accounts Totals 2024-01-29 this publication presents guidance for the compilation of distributional results on household income consumption and saving consistent with national accounts totals

Some Results on the Graph Theory for Complex Neutrosophic Sets 2019-09-11 fuzzy graph theory plays an important role in the study of the symmetry and asymmetry properties of fuzzy graphs with this in mind in this paper we introduce new neutrosophic graph called complex neutrosophic graphs of type 1 abbr cng1 we then present a matrix representation for it and study some properties of this new concept

From reference levels to results reporting: REDD+ under the United Nations Framework Convention on Climate Change 2019-10-25 this report provides an update on forest reference emission levels frel frls and reducing emissions from deforestation and forest degradation plus redd results submitted to the united nations framework convention on climate change unfccc and relevant developments under the green climate fund concerning redd results based payments it illustrates the choices countries have made when constructing their frel frls and areas for improvement identified during technical assessments as of early july 2019 the following redd measurement reporting and verification mrv milestones had been achieved 39 countries had submitted 45 frel frls to the unfccc for technical assessment 8 countries had reported redd results to the unfccc through ten submissions in the redd technical annex of their biennial

update reports totalling more than 8 billion tonnes of carbon dioxide equivalent co₂e_q in emission reductions two funding proposals brazil and ecuador for redd results based payments had been approved by the green climate fund the aim of this paper is to inform countries about recent developments in the mrv of redd activities under the unfccc certain developments are detailed out in the report such as progress in uncertainty reporting and methods used to assess deforestation such information can help countries to learn from each other s experiences and thus facilitate south south knowledge exchange on redd

TALIS Providing Quality Early Childhood Education and Care Results from the Starting Strong Survey 2018 2018-09-23 the oecd starting strong teaching and learning international survey talis starting strong is the first international survey that focuses on the ecec workforce it offers an opportunity to learn about the characteristics of the workforce the practices they use with children their beliefs about children s development and their views on the profession and on the sector this first volume of findings providing quality early childhood education and care examines multiple factors that can affect the quality of ecec and thereby can influence children s learning development and well being

Returning Individual Research Results to Participants 2020-05-22 when is it appropriate to return individual research results to participants the immense interest in this question has been fostered by the growing movement toward greater transparency and participant engagement in the research enterprise yet the risks of returning individual research resultsâ such as results with unknown validityâ and the associated burdens on the research enterprise are competing considerations returning individual research results to participants reviews the current evidence on the benefits harms and costs of returning individual research results while also considering the ethical social operational and regulatory aspects of the practice this report includes 12 recommendations directed to various stakeholdersâ investigators sponsors research institutions institutional review boards irbs regulators and participantsâ and are designed to help 1 support decision making regarding the return of results on a study by study basis 2 promote high quality individual research results 3 foster participant understanding of individual research results and 4 revise and harmonize current regulations

Deep Learning Applications with Practical Measured Results in Electronics

Industries 2019-09-23 this book collects 14 articles from the special issue entitled deep learning applications with practical measured results in electronics industries of electronics topics covered in this issue include four main parts 1 environmental information analyses and predictions 2 unmanned aerial vehicle uav and object tracking applications 3 measurement and denoising techniques and 4 recommendation systems and education systems these authors used and improved deep learning techniques e g resnet deep residual network faster rcnn faster regions with convolutional neural network lstm long short term memory convlstm convolutional lstm gan generative adversarial network etc to analyze and denoise measured data in a variety of applications and services e g wind speed prediction air quality prediction underground mine applications neural audio caption etc several practical experiments were conducted and the results indicate that the performance of the presented deep learning methods is improved compared with the performance of conventional machine learning methods

Trading Promises for Results 2022-07-28 thirty years after the region embarked on large scale liberalization trade policy could have been expected to become all but irrelevant instead a mismatch between expectations and what could realistically be delivered set the stage for much of the disappointment skepticism and fatigue regarding trade policy in the region particularly in the early 2000s by setting the bar unrealistically high governments and analysts made trade policies an easy target for special interests that were hurt by liberalization and for those ideologically opposed to free trade the most immediate victims were the more tangible growth and welfare gains whose relevance was lost amid the noise of grandiose visions

Personalization in Modern Radiation Oncology: Methods, Results and Pitfalls

2019-10-12 this issue of facial plastic surgery clinics guest edited by drs paul s nassif and julia l kerolus is devoted to revision facial plastic surgery correcting bad results articles in this outstanding issue include correction of ectropion and lower eyelid retraction following blepharoplasty complications associated with fat grafting to the lower eyelid approach to correction of septal perforation correction of the over reduced nose management of post surgical empty nose syndrome correction of nasal pinching approach to alar notching treatment protocol for compromised nasal skin management of surgical scars common complications in rhytidectomy neck deformities in plastic surgery filler associated vision loss management of lip complications tips to avoid complications following mohs reconstruction and miscellaneous botched nasal procedures

Revision Facial Plastic Surgery: Correcting Bad Results, An Issue of Facial

Plastic Surgery Clinics of North America 2019-11-15 in the wake of the technological revolution that began in the last decades of the 20th century labour market demand for information processing and other high level cognitive and interpersonal skills have been growing substantially based on the results from the 39 countries and regions that participated in the 1st cycle of the survey of adult skills piasc it places special emphasis on the results from the 3rd round of this cycle with 6 new countries collecting data in 2018 19 this report describes adults proficiency in information processing skills and examines how proficiency is related to education labour market and social outcomes

OECD Skills Studies Skills Matter Additional Results from the Survey of Adult Skills 2019-12-03 this is one of six volumes that present the results of the pisa 2018 survey the seventh round of the triennial assessment volume ii where all students can succeed examines gender differences in student performance and the links between students socio economic status and immigrant background on the one hand and student performance and well being on the other

PISA 2018 Results (Volume II) Where All Students Can Succeed 2020-02-08 the 17th iaaf world athletics championships were held in september and october 2019 in doha qatar with over 1700 athletes from 206 countries and territories taking part in 49 events this book contains every result in all the heats and finals details of previous world championship records and gold medal marks plus a comprehensive athlete index with information on every participant and their appearances history in the championships

17th World Athletics Championships - Doha 2019. Complete Results & Athlete Reference 2021-10-05 the report shows progress made on various indicators related to three overarching categories technical expected results application of organizational core values and managerial performance ultimately tdr s outputs and outcomes contribute to health impact measured through the achievement of sustainable development goals sdgs and the world health organization s who thirteenth general programme of work gpw13 triple billion targets given the adoption of the sustainable development goals by the global community in 2016 tdr developed its 2018 2023 strategy to showcase the programme s unique contribution through research capacity strengthening and global engagement to improved health quality education enhanced partnerships and other relevant sdg targets guiding international development work over the next 15 years the performance framework including a revised set of indicators which is aligned with tdr s 2018 2023 strategy the gpw13 strategic objectives and sdg targets has been in place since 2018

TDR results 2019 report 2019-06-19 the oecd teaching and learning international survey talis is the largest international survey asking teachers and school leaders about their working conditions and learning environments and provides a barometer of the profession every five years results from the 2018 cycle explore and examine the various dimensions of teacher and school leader professionalism across education systems

TALIS 2018 Results (Volume I) Teachers and School Leaders as Lifelong Learners 2023-08-07 this book gathers contributions to the 21st biannual symposium of the german aerospace aerodynamics association stab and the german society for aeronautics and astronautics dgla the individual chapters reflect ongoing research conducted by the stab members in the field of numerical and experimental fluid mechanics and aerodynamics mainly for but not limited to aerospace applications and cover both nationally and ec funded projects special emphasis is given to collaborative research projects conducted by german scientists and engineers from universities research establishments and industries by addressing a number of cutting edge applications together with the relevant physical and mathematics fundamentals the book provides readers with a comprehensive overview of the current research work in the field the book s primary emphasis is on aerodynamic research in aeronautics and astronautics and in ground transportation and energy as well

Unravelling the Basis of Non-Invasive Prenatal Screening Results 2019-09-26 governments and providers of development co operation increasingly use sustainable development goal indicators to guide their policies and practices the close examination of three large recipients of development co operation ethiopia kenya and myanmar across the sectors of education sanitation and energy reveals four inter related challenges in using sdg indicators at country level

New Results in Numerical and Experimental Fluid Mechanics XII 2019-12-17 guest edited by dr daniel aletaha this issue of rheumatic disease clinics will cover treat to target in rheumatic diseases with a focus on rationale and results this issue is one of four selected each year by our series consulting editor dr michael weisman articles explore diseases including but not limited to history rheumatoid arthritis psoriatic arthritis spondylarthropathies systemic lupus erythematosus pmr and gca inflammatory myopathies pm dm gout and subclinical targets

Sustainable Results in Development Using the SDGs for Shared Results and Impact 2019 since its origin 23 years ago as a pilot test conducted in four u s counties the u s census bureau s american community survey acs has been the focus of continuous research development and refinement the survey cleared critical milestones 14 years ago when it began full scale operations including comprehensive nationwide coverage and 5 years later when the acs replaced a long form sample questionnaire in the 2010 census as a source of detailed demographic and socioeconomic information throughout that existence and continuing today acs research and testing has worked to improve the survey s conduct in the face of challenges ranging from detailed and procedural to the broad and existential this publication summarizes the presentations and discussion at the september 26â 27 2018 workshop on improving the american community survey acs sponsored by the u s census bureau workshop participants explored uses of administrative records and third party data to improve acs operations and potential for boosting respondent participation through improved communication

Climate and Its Relevance to Lodgepole Pine Performance at the Sub-boreal Bednesti Research Site Over a 30-year Period (EP0995) 2019-10-10 provides purchasing power parities for 1996 for all 29 oecd member countries except korea and four non member countries israel slovenia the slovak republic and the russian federation they are calculated using the eks aggregation method

Treat to Target in Rheumatic Diseases: Rationale and Results 2019-06-03 this report aims to provide an in depth analysis of teachers and school leaders perceptions of the value of their profession their work related well being and stress and their satisfaction with their working conditions it also offers a description of teachers and school leaders contractual arrangements opportunities to engage in professional tasks such as collaborative teamwork autonomous decision making and leadership practices

Improving the American Community Survey 2000-01-20 provides exceptional coverage of effective solutions for diophantine equations over finitely generated domains

Purchasing Power Parities and Real Expenditures 1999 1996 Results 2020-03-23 master s thesis from the year 2017 in the subject psychology work business organisational and economic psychology grade 1 0 rhine waal university of applied sciences language english abstract the present explorative research study dealt with the candidate experience which is the sum of individual experiences of candidates with a potential employer during a recruiting process the study examined which experiences candidates made and which expectations they have within application processes in order to answer this question a mixed method approach was used first qualitative interviews n 4 were conducted the content analysis revealed eleven categories which played an important role from the subjects perspective second a quantitative online questionnaire n 170 based on these categories was performed the data were analyzed by means of descriptive analyses t tests or rather mann whitney u tests analyses of variance and correlations in general the findings showed that the applicants had a quite positive candidate experience however some basic features have to be considered within application processes including aspects such as giving feedback providing information about the application status sending confirmations of receipt and rejections and the indication of a personal contact person furthermore the study found significant differences between particular groups of applicants e g females and males which are specified in the present work in addition the candidate experience correlated with the willingness for a renewed application and the likelihood to recommend the employer to others summarizing it can be stated that taking into account the candidate experience offers a promising approach to master challenges like the demographic change the skill shortage the war for talent and the digitization by ensuring a positive candidate experience companies can differentiate from competitors in times in which there is change from an employer to an applicant market

TALIS 2018 Results (Volume II) Teachers and School Leaders as Valued Professionals 2022-04-28 how elections are reported has important implications for the health of democracy and informed citizenship but how informative are the news media during campaigns what kind of logic do they follow how well do they serve citizens e based on original research as well as the most comprehensive assessment of election studies to date cushion and thomas examine how campaigns are reported in many advanced western democracies in doing so they engage with debates about the mediatization of politics media systems information environments media ownership regulation political news horserace journalism objectivity impartiality agenda setting and the relationship between media and democracy more generally focusing on the most recent us and uk election campaigns they consider how the logic of election coverage could be rethought in ways that better serve the democratic needs of citizens above all they argue that election reporting should be driven by a public logic where the

agenda of voters takes centre stage in the campaign and the policies of respective political parties receive more airtime and independent scrutiny the book is essential reading for scholars and students in political communication and journalism studies political science media and communication studies

Effective Results and Methods for Diophantine Equations over Finitely Generated Domains 2018-04-03 this two volume set lnai 13355 and 13356 constitutes the refereed proceedings of the 23rd international conference on artificial intelligence in education aied 2022 held in durham uk in july 2022 the 40 full papers and 40 short papers presented together with 2 keynotes 6 industry papers 12 dc papers 6 workshop papers 10 practitioner papers 97 posters and late breaking results were carefully reviewed and selected from 243 submissions the conference presents topics such as intelligent systems and the cognitive sciences for the improvement and advancement of education the science and engineering of intelligent interactive learning systems the theme for the aied 2022 conference was ai in education bridging the gap between academia business and non pro t in preparing future proof generations towards ubiquitous ai

Candidate Experience. What do Candidates experience and what do they expect during Application Processes? 2021-02-24 fixed point results in w distance spaces is a self contained and comprehensive reference for advanced fixed point theory and can serve as a useful guide for related research the book can be used as a teaching resource for advanced courses on fixed point theory which is a modern and important field in mathematics it would be especially valuable for graduate and postgraduate courses and seminars features written in a concise and fluent style covers a broad range of topics and includes related topics from research suitable for researchers and postgraduates contains brand new results not published elsewhere

New Challenges in the Research of Academic Achievement: Measures, Methods, and Results 2019 sandor introduced a new smarandache type function denoted by ss_n and is called the sandor smarandache function when n is an odd positive integer then ss_n has a very simple form as has been derived by sandor himself however when n is even then the form of ss_n is not simple and remains an open problem this paper finds ss_n for some special cases of n particular attention is given to values of the general forms ss_{2mp} ss_{6mp} ss_{60mp} and ss_{420mp} where m is any positive integer and p is an odd prime some particular cases have been treated in detail in section 4 some remarks are observed

Decision Support Tool to Reduce Energy and Water Consumption in Agriculture 1988 ten chapters discuss key aspects of advanced pls analysis and its practical applications covering new guidelines and improvements in the use of pls pm as well as various individual topics

Guidance on Setting Permit Conditions and Reporting Trial Burn Results 2018-03-02 this is one of six volumes that present the results of the pisa 2018 survey the seventh round of the triennial assessment volume i what students know and can do provides a detailed examination of student performance in reading mathematics and science and describes how performance has changed since previous pisa assessments

Reporting Elections 2022-07-25 this two volume set constitutes the proceedings of the third conference on creativity in intellectual technologies and data science cit ds 2019 held in volgograd russia in september 2019 the 67 full papers 1 short paper and 3 keynote papers presented were carefully reviewed and selected from 231 submissions the papers are organized in topical sections in the two volumes part i cyber physical systems and big data driven world part ii artificial intelligence and deep learning technologies for creative tasks intelligent technologies in social engineering
