how do musical analysis and performance relate in a unique collaborative approach to this question theorist pianist daphne leong partners with internationally renowned performers to interpret twentieth century repertoire imaginative explorations of music by ravel schoenberg bartók schnittke milhaud messiaen babbitt carter and morris illuminate focal issues such as the role of embodiment the affordances of a score the cultural understanding of notation the use of metaphor and to round out the viewpoints of theorist and performers with those of composer and listeners the role of structure in audience reception each exploration engages deeply with musical structure redefined to encompass the creative activity of composers performers analysts and listeners performances demonstrations and interviews online complement the book s written text practical application and pedagogical guidance round out theoretical and analytical content the collaborations themselves demonstrate different dimensions of knowledge at the intersection of analysis and performance and illustrate leong s theory of the things and people that facilitate cross disciplinary collaboration in music they also exemplify the antagonisms and synergies that emerge when theorists and performers meet both flexibly and rigorously conceived performing knowledge is a brave crossing of disciplinary divides between scholarship and practice a work of analysis shaped by the voices of performers

from one of the greatest russian writers of the past half century comes a metaphysical mystery novel that defies categorization and confounds expectation andrei bitov s the symmetry teacher presents itself as the echo of an older british novel bitov once read and had long forgotten unable even to recall the name of that novel s author bitov reconstructs its literary vision through the fog of memory creating a group of stories nestled together like a matryoshka doll in doing so bitov evokes the anxieties of the late and post soviet decades confronting urgent questions of conscience and self deception through an innovative style that revels in paradox and sleight of hand unified by the delightfully maddening search for the identity of a writer toiling in obscurity the symmetry teacher takes us through a curious series of episodes a man meets the devil on a park bench and the devil shows him photographs of the fall of troy shakespeare s legs and a terrible event that will take place in his future a young poet fleeing his past is stranded on a windswept island and tormented by a lover and her shape shifting evil twin three friends unable to become writers start a literary society where books and manuscripts are neither read nor returned and new members are accepted only if their work is unwritten a king who reigns over all possible worlds and uses his power to remove stars from the sky turns out to be the compiler of the encyclopædia britannica writing with impish daring bitov crafts an enchanting fiction from interwoven fables the result challenges the boundaries between life and literature author and reader and memory and imagination exploring the sacrifices that a writer may make out of ardor for his art mingling fantasy and satire with moral concern bitov is a deserving heir to the tradition of gogol dostoevsky and bulgakov the symmetry teacher showcases the work of a postmodern master at the height of his craft
