Dolts, Dunces, Halfwits and Blockheads 2013

mvdarklight's long-awaited first book, *The Philosopher of Fools*, contains the complete versions of his most famous works along with many new unreleased pieces including poems, quotes, and short stories, mostly having to do with love, inspiration, philosophy, and spirituality. Michael V. Darklight is known for writing vastly creative pieces that speak boundlessly to the heart, mind, and soul while using few words to do so. His use of surrealism to define ideas to perfect sense using concepts that shouldn't make any sense at all, and his ability to drastically change writing styles from the majestically simple to the beautifully intricate, from lovely light tones to bittersweet dark tones, all while retaining a sense of spirituality and conviction.

the ship of fools is written in the dialect of swabia and consists of vigorous resonant and rhyming iambic quadrameters it is divided into 113 sections each of which with the exception of a short introduction and two concluding pieces treats independently of a certain class of fools or vicious persons and we are only occasionally reminded of the fundamental idea by an allusion to the ship no folly of the century is left uncensured the poet attacks with noble zeal the failings and extravagances of his age and applies his lash unsparingly even to the dreaded hydra of popery and monasticism to combat which the hercules of wittenberg had not yet kindled his firebrands

on this great stage of fools is an australian memoir written by mark dobbins an english teacher who lives on the central coast near sydney australia the early stages show a contrast between entertaining childhood adventures and a life lived in fear of a very violent father there are evocative scenes of paternal violence and even a shocking bloody encounter between the father and a neighbour the father is also expert in the application of passive aggression towards the author his siblings and his mother this compelling tale includes plenty of historical and cultural interest working class australia in the 50s and 60s and beyond the author s school days are full of inspirational teachers wild and whacky friends and a love of learning mixed with cruelty violence and bullying the author leaves home at 16 and has to find a job and a safe place to live almost overnight thus school ends in year 11 and his dreams of becoming an english teacher seem dashed forever but he still yearns to fulfill his calling to go to university and then become an english teacher there are references to contemporary songs and several shakespearean themes reverberate in the background one motif is the unknown unseen balance between luck or fate and our ability to rise above what life sometimes dishes up this memoir is about a boy s search for a hero and a man s survival in a world determined to test his mettle time and again it ultimately shows that on this great stage of fools you can get by with a little help from your friends
