this edition of thomas hobbes s leviathan is intended to update hobbes s style and language from early modern english to more contemporary 21st century english and to clarify some important elements of the work that are problematic to beginning and casual readers of hobbes the complete works modern critical edition is part of the landmark new oxford shakespeare an entirely new consideration of all of shakespeare s works edited afresh from all the surviving original versions of his work and drawing on the latest literary textual and theatrical scholarship in one attractive volume the modern critical edition gives today s students and playgoers the very best resources they need to understand and enjoy all shakespeare s works the authoritative text is accompanied by extensive explanatory and performance notes and innovative introductory materials which lead the reader into exploring questions about interpretation textual variants literary criticism and performance for themselves the modern critical edition presents the plays and poetry in the order in which shakespeare wrote them so that readers can follow the development of his imagination his engagement with a rapidly evolving culture and theatre and his relationship to his literary contemporaries the new oxford shakespeare consists of four interconnected publications the modern critical edition with modern spelling the critical reference edition with original spelling a companion volume on authorship and an online version integrating all of this material on oup s high powered scholarly editions platform together they provide the perfect resource for the future of shakespeare studies

early seventeenth century italy saw a revolution in instrumental music large varied and experimental the new instrumental repertoire was crucial for the western tradition but until now the impulses that gave rise to it had yet to be fully explored curious and modern inventions offers fresh insight into the motivating forces behind this music tracing it to a new conception of instruments of all sorts whether musical artistic or scientific as vehicles of discovery rebecca cyress shows that early modern thinkers were fascinated with instrumental technologies the telescope the clock the pen the lute these were vital instruments for leading thinkers of the age from galileo galilei to giambattista marino no longer used merely to remake an object or repeat a process already known instruments were increasingly seen as tools for open ended inquiry that would lead to new knowledge engaging with themes from the history of science literature and the visual arts this study reveals the intimate connections between instrumental music and the scientific and artisanal tools that served to mediate between individuals and the world around them

antennas the author has many years of hands on experience designing antennas that were used in such applications as the venus and mars missions of nasa the book covers all important topics of modern antenna design for communications numerical methods will be included but only as much as are needed for practical applications

robinson crusoe is one of the most famous literary characters in history and his story has spawned hundreds of retellings inspired by the life of alexander selkirk a sailor who lived for several years on a pacific island the novel tells the story of crusoe s survival after shipwreck on an island interaction with the mainland s native inhabitants and eventual rescue read

variously as economic fable religious allegory or imperialist fantasy cruso e has never lost its appeal as one of the most compelling adventure stories of all time in addition to an introduction and helpful notes this broadview edition includes a wide range of appendices that situate defoe s 1719 novel amidst castaway narratives economic treatises reports of cannibalism explorations of solitude and defoe s own writings on slavery and the african trade a final appendix presents images of cruso e s rescue of friday from a dozen of the most significant illustrated editions of the novel published between 1719 and 1920

now in its fifth edition this leading reader has been updated with new readings and visual sources this edition includes an added final chapter on current social movements to help students reflect on the ecological realities that inform their world in addition the legacies of colonialism chapter has been restored to give students an understanding of the deep roots of the problems explored instead of a separate chapter on women and social change women s voices have been woven more seamlessly throughout the book to reflect women s parity and equity in history with its innovative combination of primary and secondary sources and thoughtful editorial analysis this text is designed specifically to stimulate critical thinking in a wide range of courses on latin american history since independence

an anthology of previously unpublished and hard to find poetic material from early modern women who wrote in manuscript form it features a broad and useful introduction examining the phenomenon of manuscript writing and biographical notes preface the work of each author in this text peter blundell jones and eamonn canniffe detail a new approach to the understanding of modern architecture by using case studies to explore the themes and diversity of architecture from the 1945 to 1990 this book was first published in 2006 second only to the bible and book of common prayer john foxe s acts and monuments known as the book of martyrs was the most influential book published in england during the sixteenth and seventeenth centuries the most complex and best illustrated english book of its time it recounted in detail the experiences of hundreds of people who were burned alive for their religious beliefs john n king offers the most comprehensive investigation yet of the compilation printing publication illustration and reception of the book of martyrs he charts its reception across different editions

by learned and unlearned sympathetic and antagonistic readers the many illustrations included here introduce readers to the visual features of early printed books and general printing practices both in england and continental europe and enhance this important contribution to early modern literary studies cultural and religious history and the history of the book this expanded textbook now in its second edition is a practical yet in depth guide to cryptography and its principles and practices now featuring a new section on quantum resistant cryptography in addition to expanded and revised content throughout the book continues to place cryptography in real world security situations using the hands on information contained throughout the chapters prolific author dr chuck easttom lays out essential math skills and fully explains how to implement cryptographic algorithms in today s data protection landscape readers learn and test out how to use ciphers and hashes generate random keys handle vpn and wi fi security and encrypt voip email and communications the book also covers cryptanalysis steganography and cryptographic backdoors and includes a description of quantum computing and its impact on cryptography this book is meant for those without a strong mathematics background with only just enough math to understand the algorithms given the book contains a slide presentation questions and answers and exercises throughout presents new and updated coverage of cryptography including new content on quantum resistant cryptography covers the basic math needed for cryptography number theory discrete math and algebra abstract and linear includes a full suite of classroom materials including exercises q a and examples vols for 1921 1969 include annual bibliography called 1921 1955 american bibliography 1956 1963 annual bibliography 1964 1968 mla international bibliography this book is devoted to the life and academic legacy of mustafa badawi who transformed the study of modern arabic literature in the second half of the 20th century the history of the christian jewish relations is full of curious intense and occasionally tragic episodes in the dialectical development of the western monotheistic religions judaism plays the role of the thesis of the origins and background for the rise of christianity and islam with the rise of christianity judaism was progressively marginalized since it was denied the same essence and validity of christianity which grew immensely in terms of spiritual and secular power christian scholars since the middle ages looked at judaism as at the broken staff in the evolutionist line of religion to quote the insightful work of the late frank e manuel at the same time while re discovering judaism christian scholars redefined themselves and christianity as well however while christianity encompassed many sects and many nations the relatively weak diversity within judaism the religion of a single nation seemed to hinder its evolution and development while the intellectual battle was fought in a scholarly way the emergence of the christian state condemned the jews to perpetual discrimination and occasional toleration until a lay state nazi germany threatened the survival of the jewish people neutral controversial works became powerful extermination tools when used in the political arena this volume casts light on some crucial episodes in the long dialectics within the same intellectual and religious framework touching upon themes such as the conception of time future in the age of spinoza the early encounters of judaism and christianity in eighteenth century england the memory of the shoah and the political revolution present in the system of the jewish commonwealth from early to late modernity there is a history of friendship and diffidence mutual understanding and dramatic disagreements which even today largely conditions the western intellectual world starting with an essay on the renaissance as the concluding phase of the middle ages and ending with appreciations of paul oskar kristeller the great twentieth century scholar of the renaissance this new volume by john monfasani brings together seventeen articles that focus both on individuals such as erasmus of rotterdam angelo poliziano marsilio ficino and niccolò perotti and on large scale movements such as the spread of italian humanism ciceronianism biblical

criticism and the plato aristotle controversy in addition to entering into the persistent debate on the nature of the renaissance the articles in the volume also engage what of late have become controversial topics namely the shape and significance of renaissance humanism and the character of the platonic academy in florence this is a reference for early modern philosophy representing the most contemporary research in the history of early modern philosophy it is organized by thinker rather than theme and covers every important philosopher and philosophical movement of 16th and 18th century europe emphasizing the significance of early modern prose fiction as a hybrid genre that absorbed cultural ideological and historical strands of the age this fascinating study brings together an outstanding cast of critics including sheila t cavanaugh stephen guy bray mary ellen lamb joan pong linton steve mentz constance c relihan goran v stanivukovic with an afterword from arthur kinney each of the essays in this collection considers the reciprocal relation of early modern prose fiction to class distinctions examining factors such as the impact of prose fiction on the social political and economic fabric of early modern england the way in which a growing emphasis on literacy allowed for increased class mobility and newly flexible notions of class how the popularity of reading and the subsequent demand for books led to the production and marketing of books as an industry complications for critics of prose fiction as it began to be considered an inferior and trivial art form early modern prose fiction had a huge impact on the social and economic fabric of the time creating a new culture of reading and writing for pleasure which became accessible to those previously excluded from such activities resulting in a significant challenge to existing class structures
