Nationalism and Internationalism of Gandhi, Nehru, and Tagore 1989 while secularism has been integral to india s democracy for more than fifty years its uses and limits are now being debated anew signs of a crisis in the relations between state society and religion include the violence directed against muslims in gujarat in 2002 and the precarious situation of india s minority religious groups more generally the existence of personal laws that vary by religious community the affiliation of political parties with fundamentalist religious organizations and the rallying of a significant proportion of the diasporic hindu community behind a resurgent nationalist hinduism there is a broad consensus that a crisis of secularism exists but whether the state can resolve conflicts and ease tensions or is itself part of the problem is a matter of vigorous political and intellectual debate in this timely nuanced collection twenty leading indian cultural theorists assess the contradictory ideals policies and practices of secularism in india scholars of history anthropology religion politics law philosophy and media studies take on a broad range of concerns some consider the history of secularism in india others explore theoretical issues such as the relationship between secularism and democracy or the shortcomings of the categories majority and minority contributors examine how the debates about secularism play out in schools the media and the popular cinema and they address two of the most politically charged sites of crisis personal law and the right to practice and encourage religious conversion together the essays inject insightful analysis into the fraught controversy about the shortcomings and uncertain future of secularism in the world today contributors flavia agnes upendra baxi shyam benegal akeel bilgrami partha chatterjee v geetha sunil khilnani nivedita menon ashis nandy anuradha dingwaney needham gyanendra pandey gyan prakash arvind rajagopal paula richman sumit sarkar dwaipayana sen rajeswari sunder rajan shabnum tejani romila thapar ravi s vasudevan gauri viswanathan

Wit and Wisdom of Gandhi, Nehru, Tagore 1968 although gandhi has been the subject of hundreds of books and an oscar winning film there has been no sustained study of his engagement with major figures in the indian independence movement who were often his critics from 1920 1948 this book fills that gap by examining the strengths and weaknesses of gandhi s contribution to india as evidenced in the letters speeches and newspaper articles focused on the dialogue debate between gandhi and jawaharlal nehru rabindranath tagore sri aurobindo bhim rao ambedkar annie besant and c f andrews the book also covers key groups within india that gandhi sought to incorporate into his independence movement the hindu right muslims christians and sikhs and analyzes gandhi s ambiguous stance regarding the hindi urdu question and its impact on the independence struggle

Indian Critiques of Gandhi 2012-02-01 since the 1970s a critical movement has been developing in the humanities and social sciences denouncing the existence of western dominance over the worldwide production and circulation of knowledge however thirty years after the emergence of this promising agenda in international relations ir this discipline has not experienced a major shift this volume offers a counter intuitive and original contribution to the understanding of the global circulation of knowledge in contrast to the literature it argues that the internationalisation of social sciences in the designated global south is not conditioned by the existence of a presumably western dominance indeed although discriminative practices such as eurocentrism and gate keeping exist their existence does not lead to a unipolar structuration of ir internationalisation around the west based on these empirical results this book reflexively questions the role of critique in the re production of the social and political order paradoxically the anti eurocentric critical discourses reproduce the very eurocentrism they criticise this book offers methodological support to address this paradox by demonstrating how one can use discourse analysis and reflexivity to produce innovative results and decentre oneself from the vision of the world one has been socialised into this work offers an insightful contribution to international relations political theory sociology and qualitative methodology it will be useful to all students and scholars interested in critical theories international political sociology social sciences in brazil and india knowledge and discourse eurocentrism as well as the future of reflexivity

Gandhi's Footprints 2017-10-24 rabindranath tagore s drama chitra is aimed at reminding man that the ultimate truth is to be found not at the physical level but in the steady evolution of the self the illumination of a young princess mind lies in the recognition and realization that it is in truth alone that true happiness resides similarly aurobindo s epic savitri seeks to narrate the story of a young princess who saves the life of her husband from death to suggest the ultimate liberation of man from universal death chitra and savitri are upanishadic works in the sense that their principal theme is the search for vidya knowledge that liberates man from avidya ignorance and that their main stylistic device is the conversation between the human and divine characters evolution thus becomes the watchword of both aurobindo and tagore the awakening of the self or raising the life and existence to a higher level of consciousness is one of the parallel themes observed in chitra and savitri further the integral transformation of chitra and savitri and their inner intuitive development has a much wider connotation to mankind at large chitra and savitri are thus established as works of self discovery although there are fundamental differences in terms of the nature of chitra and savitri s awareness there is no denying the fact that these legends from the mahabharata are exquisite examples of the female aspect of the indian women
