Carl Jung, Hauntings, and Paranormal Coincidences 2015-03-23

this is a book of true life events stories taken from carl jung s life and the lives of others that vividly demonstrate our potential to connect with unseen worlds jung s experiences because of his fame as a world renowned psychiatrist set the stage for the presentation of all paranormal adventures offered here and his fascinating theory of synchronicity serves to give a depth of meaning to the nature of all strange coincidences including those woven into the enclosed chapters

The Synchronicity Highway 2013-11

synchronicity or meaningful coincidence is the most conscious aspect of the underlying web of reality that connects everyone and everything as humanity s consciousness expands and new paradigms and worldviews are born synchronicity is more evident in mass events like 9 11 the shootings at sandy hook and aurora the explosions at the boston marathon in extreme weather phenomena it occurs in alien encounters often is intertwined with paranormal experiences and may act as an interface between life and death it happens frequently when our lives are in transition once you re aware that coincidences are meaningful you re on the synchronicity highway traveling through a kind of quantum weirdness that features astounding odds tricksters messengers from the unknown the unseen the seemingly miraculous when you re on the synchronicity highway you re exactly where you should be

The Roots of Coincidence 1972

the author is no stranger to tackling mysteries he is internationally known as a highly competent investigator of the paranormal and a trustworthy chronicler of such in ten books the new york times exclaimed that his best selling book the andreasson affair if true must rank with the great classics of scientific revelation air force chief ufo scientific consultant dr j allen hynek wrote that his ufo investigations are meticulous and far exceed that of the government dr kenneth ring father of near death experience nde research wrote that fowler s researched book on near death and ufo experiences may well have deciphered the ultimate nature and meaning of these baffling phenomena in synchrofile fowler applies the same kind of meticulous research into the supernatural like synchronistic experiences that permeate his life this book compiles the results of his research into jungian psychology the new physics and his study of a ten year diary of personal and family experiences of amazing coincidences and paranormal experiences his research leads to the incredulous conclusion that time is an illusion and that reports of synchronicity ghosts out of the body experiences near death experiences ufos precognition telepathy and other extrasensory experiences are all individual expressions of one intelligent like meta phenomenon

SynchroFile 2004-05-26

when strange things happen to people or when they experience bad luck they may come to believe that they ve been cursed in this well researched and well referenced book dr peter mccue looks at curses or alleged curses from an evidential and parapsychological perspective he also examines what appeared to be a party fear

coincidences he presents a wide array of cases and asks how strange coincidences arise and how curses might work dr mccue is a retired clinical psychologist with a longstanding interest in anomalous phenomena apparitions hauntings ufo sightings etc he has personally investigated many cases and he has written numerous articles on paranormal and ufo related matters he is the author of three previous books covering these fields

Curses, Coincidences & Malign Influence: A Parapsychological Perspective 2021-11-24

the dark essence of old house woods filled the air within a small town on the edge of virginia many years into the past you will find hauntings and sights of strange things deep within the intertwining foliage of the swamps near haven and yet another story is on the glimpse of surfacing in 2008 the cogs of fate began to turn learn the story of a young boy along with nearly 20 other individuals who began experiencing strange and paranormal disturbances these 20 individuals experienced what some may consider hallucinations delusions and manic episodes and what others may consider spiritual awakenings psychic phenomenon as well as possession was it all just a coincidence

Beyond Coincidence 1976

who isn t familiar with the infamous inspector chance who always appears unannounced does the unexpected only seem like a coincidence because we are unaware of the complex order behind it the question cannot be answered by a simple yes or no instead the author hopes to show that coincidence has two very different faces part of

them reveals the trivial side the other in contrast is coincidence of a higher order which is no longer truly a coincidence rather it is based on connections that science is just beginning to discover to allow the reader to better understand the sections related to supernatural phenomena the author has created two physicists to accompany the reader they are al and zach whereas al vehemently defends the traditional side zach is among the avantgarde in his field who does not view the phenomena represented here as taboo and who attempts to reconcile such phenomena using the discoveries of modern quantum physics let yourself be carried away not only while reading these incredible stories of coincidence but by the exciting discussion as well which is free of prejudice and does not attempt to place mysticism on a scientific platform following his studies in chemistry dr rolf frobose worked as a research assistant at the max planck institute was division manager at technology magazine hightech and chief editor of the journals chemie industrie and europa chemie since 1995 he has worked as a freelance science and economic journalist reporting on research and technology issues he has also penned numerous popular non fiction books including the secret physics of coincidence and lust und liebe alles nur chemie lust and love is it more than chemistry wiley vch 2004 the latter was written in collaboration with his wife gabriele and has been translated into english spanish danish and korean

This Book Is a Coincidence 2018-05-19

for all of human history many have believed that a small few among us have had the gift of second sight the ability to snatch glimpses of the future or to obtain information by some method other than the traditionally recognized five senses but what if these

gifts are not as rare as believed what if anyone can learn to access such abilities and may already be doing so without even knowing it what if in fact such events are a basic part of the human experience novelist and former tv news journalist and radio talk show host forrest carr has spent a lifetime experiencing various episodes that some might call paranormal in nature episodes including premonitions precognition visions clairvoyance lucid dreaming and yes in three cases even miracles like most normal people wishing to maintain a certain credible reputation throughout his career carr kept these experiences private and under wraps but the events led to decisions that profoundly changed the course of his life over time an effect that has accelerated considerably of late because of recent dramatic new developments in his health as accurately foreshadowed in personal premonitions carr feels that now is the time to tell this story or put another way if the story isn t told now then it never will be when it comes to events of this nature carr does not consider himself to be a psychic or to be in any way talented or out of the ordinary he is instead an entirely ordinary and average person and he believes that anyone can learn to experience the types of phenomena he has in this book he explains his experiences and shows how others can learn to accomplish the same thing carr spent a lifetime as a tv news journalist and brings a serious approach to this highly personal subject matter including supporting documentation where available this book not only has the potential to open readers eyes to an entirely new world but to inspire the reader especially those who might be encountering dark emotional crises to embrace life in new ways as these experiences have done for the author this is a book that will introduce concepts such as paranormal visions precognition perception that comes in from outside the normal 5 senses and even lucid dreaming to everyday people and teach them to

embrace and experience such phenomena for themselves all it takes is an open mind determination and perseverance forrest carr named by kirkus reviews as a 2015 author to watch is author of the novels messages a journal of the crazy year and the dark

The Secret Physics of Coincidence 2012-12

this is a unique book on how probability affects our everyday lives it guides the reader in an almost chronological trip through the fascinating and amazing laws of chance omnipresent in the natural world and in our daily lives along the way many fascinating topics are discussed these include challenging probability paradoxes paranormal coincidences game odds and causes and effects finally the author discusses possibilities and limitations of learning the laws of a universe immersed in chance events this charming book with its many easy to follow mathematical examples will inform and entertain the scientist and non scientist alike

My Lifetime of Weird Coincidences and Strange Happenings 2015-09-24

the field of research on the paranormal has changed enormously in the last 20 years examining experiences of esp psychokinesis precognition ganzfeld dissociative states out of the body experiences alien abductions and near death experiences david marks appraises the best available evidence to date on scientific claims of the paranormal each chapter also provides a description of the psychological processes that are likely to contribute to these experiences and to the high prevalence of paranormal beliefs importantly this book does not take a fixed sceptical or disbelieving view of

the phenomena but as far as possible offers a neutral gaze which will equip readers to make up their own minds as well as providing them with the critical skills to defend their conclusions

Chance 2008-02-02

a discursive look and explanation of coincidence and all paranormal phenomena using real life examples

Psychology and the Paranormal 2020-06-08

although much has been said and written about coincidences there is a marked absence when it comes to the development of a comprehensive model that incorporates the many different ways in which they can be understood and explained one reason for this omission is undoubtedly the sharp divide that exists between those who find coincidences meaningful and those who do not with the result that the conclusions of the many books and articles on the subject have tended to fall into distinct camps the many faces of coincidence attempts to remedy this impasse by proposing an inclusive categorisation for coincidences of all shapes and sizes at the same time some of the implications arising from the various explanations are explored including the possibility of an underlying unity of mind and matter constituting the ground of being

The Roots of Coincidence with a Postscript 1972

coincidence koh in si duhns noun a striking occurrence of two or more events at one time apparently by chance

chance a small collection of stories passed down over the years be it through word of mouth or in the press the perfect bathroom book for those days when your cell phone has died and you have read every bottle and all the ingredients in the medicine cabinet fun short stories for any time of day or night many you may not believe could possibly happen and a few will make you think about how fragile we are on this planet we call earth there is no coincidence that the author who was born in swindon wiltshire england which is the home county for the westbury white horse corn circles stonehenge avebury silbury hill but has spent over half his life in the usa studying all aspects of the unusual throughout the world with a strong background in history and the paranormal this is a perfect subject to write about so kick back pour a hot cup of tea and start reading unless you are in the bathroom of course then the tea comes later

features that ease them into more difficult ideas always stressing the practical use of theoretical concepts a clear introduction to the basics of psychological testing and their application in everyday educational clinical and organizational settings written in response to a growing need for a reference book on psychological testing conducive to student learning psychological testing provides readers with a clear and accessible introduction to the field this book gives students an understanding of the basic concepts issues and tools used in psychological testing and also illustrates how these are relevant in day to day educational organizational and clinical environments this book highlights all these aspects in great detail

Paranormal South Tyneside 2009-08-15

roderick main brings together a selection of both the well known and less accessible of jung s writings on psychic phenomena and synchronicity his introduction sets out clearly the theory of synchronicity clarifying the more complex issues

Science Confronts the Paranormal 2023-12-15

this book presents a multidisciplinary perspective on chance with contributions from distinguished researchers in the areas of biology cognitive neuroscience economics genetics general history law linguistics logic mathematical physics statistics theology and philosophy the individual chapters are bound together by a general introduction followed by an opening chapter that surveys 2500 years of linguistic philosophical and scientific reflections on chance coincidence fortune randomness luck and related

concepts a main conclusion that can be drawn is that even after all this time we still cannot be sure whether chance is a truly fundamental and irreducible phenomenon in that certain events are simply uncaused and could have been otherwise or whether it is always simply a reflection of our ignorance other challenges that emerge from this book include a better understanding of the contextuality and perspectival character of chance including its scale dependence and the curious fact that throughout history including contemporary science chance has been used both as an explanation and as a hallmark of the absence of explanation as such this book challenges the reader to think about chance in a new way and to come to grips with this endlessly fascinating phenomenon

Psychological testing 2018-11-17

synchronicity or meaningful coincidence is the most conscious aspect of the underlying web of reality that connects everyone and everything as humanity s consciousness expands and new paradigms and worldviews are born synchronicity is more evident in mass events like 9 11 the shootings at sandy hook and aurora the explosions at the boston marathon in extreme weather phenomena it occurs in alien encounters often is intertwined with paranormal experiences and may act as an interface between life and death it happens frequently when our lives are in transition once you re aware that coincidences are meaningful you re on the synchronicity highway traveling through a kind of quantum weirdness that features astounding odds tricksters messengers from the unknown the unseen the seemingly miraculous when you re on the synchronicity highway you re exactly where you should be

Jung on Synchronicity and the Paranormal 1997

many people believe in the power of positive thinking but no one had succeeded in credibly explaining how mere thoughts can tangibly influence future occurrences to explain the connection joseph donlan presented highly plausible theories in two preceding books each of these books presents a new paradigm of nature and couples it with a convincing explanation of how our right brain hemispheres have a unique ability to tap into the hidden domain of the metaphysical this final book in the series also supports these premises however it does so at a higher more condensed level so that readers with no background in science can gain enough information to appreciate the divergent worlds of physics and metaphysics and gain a view of nature that undeniably links mind to matter

The Challenge of Chance 2016-06-09

many people believe in the power of positive thinking but no one has succeeded in credibly explaining how mere thoughts can tangibly influence future occurrences to explain the connection this book presents a new paradigm of nature and couples it with a convincing explanation of how our right brain hemispheres have a unique ability to tap into the hidden domain of the metaphysical to support this premise the reader is lightly exposed to the divergent worlds of physics and metaphysics and is then introduced to a new view of nature that undeniably links mind to matter important to its charge the new perspective makes the case that the future can only be created with thoughts in the final analysis the author brings his readers through the necessary steps to put this knowledge to work to

help them create their own realities

The Synchronicity Highway 2013-11

dr sean o donnell is possibly the only hard scientist ever to have developed deep intuition competence quite deliberately this unique symbiosis then readily affords a radical new viewpoint which can make large regions of paranormal experience quite easy to understand the new anti memory or pre call viewpoint can readily demystify much of the previously mysterious experience of intuition while bringing the paranormal into congruence with normal science as never before specifically it permits a first ever psychological exploration of einstein s theory of relativity which broadly holds that time does not pass though people do this book is written in a very simple style to be accessible to all so that if you ve ever experienced intuition and wondered what it might signify you ll find a startling new answer here

Ordaining Reality in Brief 2009

religion supernaturalism the paranormal and pseudoscience provides a comprehensive rejoinder to the challenges posed to science scientific anthropology evolutionary theory and rationality by the advocates of supernatural paranormal and pseudoscientific perspectives and modes of thought associated with the current rise of irrationalism antiintellectualism and emboldened religious fundamentalism and violence drawing upon h sidky s scientific anthropological background and ethnographic field research of supernatural and paranormal beliefs and practices in several cultures over three decades the book answers several important questions why do humans have a proclivity for the supernatural and paranormal thinking

why has humanity remained shackled to sets of ideas inherited from a violent past that have no basis in reality and which bestow an illusionary solace promote bloodshed endless cruelties and fervent hatreds and have come at a high cost why have ancient superstitions been held as sacred inviolate truths while other aspects of the archaic belief systems of which they were a part have long been discarded why have not humans outgrown religion and paranormal beliefs

Ordaining Reality Made Easy 2009

an accessible and gratifying introduction to the world of paranormal beliefs and bizarre experiences ghostly encounters alien abduction reincarnation talking to the dead ufo sightings inexplicable coincidences out of body and near death experiences are these legitimate phenomena if not then how should we go about understanding them in this fascinating book chris french investigates paranormal claims to discover what lurks behind this weird shit french provides authoritative evidence based explanations for a wide range of superficially mysterious phenomena and then goes further to draw out lessons with wider applications to many other aspects of modern society where critical thinking is urgently needed using academic comprehensive logical and at times mathematical approaches the science of weird shit convincingly debunks esp communicating with the dead and alien abduction claims among other phenomena all the while however french maintains that our belief in such phenomena is neither ridiculous nor trivial if anything such claims can tell us a great deal about the human mind if we pay them the attention they are due filled with light bulb moments and a healthy dose of levity the science of weird shit is a clever memorable and gratifying read you won t soon forget

The Paranormal Explained 2007-09-01

in there are no coincidences readers learn how to access modern day mystical experience through a phenomenon known as synchronicity the term refers to otherwise unrelated events that assume significance from the unique vantage point of a single observer for no apparent cause you happen to remember a friend you have not thought about for many years just then the telephone rings and the voice on the other end of the line is the same person you had in mind such incidents are not merely statistical probabilities but if properly appreciated vital clues to understanding the mystery of our subtle connection with the compassionate mind that organizes all creation citing an abundance of anecdotal examples including synchronicities from the titanic to the world trade center there are no coincidences clearly explains the simple methods used to interpret such paranormal happenings and how to apply them toward our own spiritual empowerment

Religion, Supernaturalism, the Paranormal and Pseudoscience **2019-11-30**

a valuable guide book that leads us step by step into communication with our deeper subconscious nature and nudges open the gate to our inner self dale graff frank joseph boldly and eloquently connects us to a larger world thomas ropp we have all experienced inexplicable coincidences such as thinking about an old friend before the phone rings and it happens to be that old friend the power of coincidence reveals that such events are not random but crucial pieces in the puzzle of our lives author frank joseph shows us how to recognize instances of meaningful coincidences

synchronicity as it was called by jung and the guidance they offer in finding our true path in life includes instructions on how to keep a personal journal of meaningful coincidences revealing the significant patterns and cycles within your life

The Science of Weird Shit 2024-03-19

can mediums communicate with the dead do people really believe they ve been abducted by aliens why do some people make life decisions based on their horoscope the psychology of the paranormal explores some commonly held beliefs regarding experiences so strange they can defy an obvious scientific explanation the book explains how psychologists have conducted experiments to provide insight into phenomena such as clairvoyance astrology and alien abduction as well as teaching us fundamental truths about human belief systems from debunking myths about extra sensory perception to considering whether our lives can truly be fated by the stars the psychology of the paranormal shows us that however unlikely belief in the paranormal will continue to be widespread

There Are No Coincidences 2006-02

pseudoscience and extraordinary claims of the paranormal a critical thinker s toolkit provides readers with a variety of reality checking tools to analyze extraordinary claims and to determine their validity integrates simple yet powerful evaluative tools used by both paranormal believers and skeptics alike introduces innovations such as a continuum for ranking paranormal claims and evaluating their implications includes an innovative critical thinker s toolkit a systematic approach for performing reality checks on paranormal claims related to astrology

The Power of Coincidence 2009-03-01

few people can claim the distinction of experiencing
first hand such occurrences as hauntings and the
presence of poltergeists but countless numbers of
people are fascinated by these unexplainable events
written by the world s most knowledgeable authorities
in this field the essays in this work promote a better
understanding of the manifestations of and various
reasons for hauntings and poltergeist phenomena the
experts come from such backgrounds as anthropology
history philosophy psychiatry and sociology and provide
sober yet highly readable in depth discussions of
numerous ideas and rationalizations for hauntings and
poltergeists from a critical and scientific perspective
divided into three major sections sociocultural
physical and physiological and psychological
perspectives this work provides an overview of each
perspective and also addresses the general psychology
of belief in the paranormal and how that belief relates
to experiences with ghosts and poltergeists

The Psychology of the Paranormal

2019-04-01

this book examines the remarkable feats of mesmerists mediums and mind readers and provides a new psychology of extraordinary beliefs

Pseudoscience and Extraordinary Claims of the Paranormal 2011-09-26

we all think that we can tell the difference between someone who is mad or whom psychiatrists call psychotic and someone who is sane but can we really tell who is mad and who is not do we really know what madness is and how it should be recognized have psychiatrists made a sensible distinction between the patient who believes that aliens are beaming messages to him from a foreign planet and the religious fanatic who believes god communicates to him via automatic writing is there a difference between the paranoid patient who believes that the fbi is after him and the sizeable proportion of our normal population that believe that the us government orchestrated the 9 11 bombings here reznek hopes to shed light on the delusions of the masses those delusions that are common to everyday people living so called ordinary lives he provides an understanding of madness and the psychological processes that drive us to adopt delusions arguing that it is a mistake to view only schizophrenic patients as delusional while excluding large groups of society from such an analysis if we abandon the idea that whole communities cannot share a delusion we can come to a better understanding about why the world is such a dangerous place

Hauntings and Poltergeists 2015-08-13

the ancient port town of malacca is an old town rich in history since the beginning of malacca its community was made up of a colourful potpourri of cultures and beliefs the different communities have their own understanding of the powers of the supernatural as far back as the year 1421 there was a written account from chinese records of the strange and paranormal witnessed in malacca these stories continued in portuguese dutch and british eras up to modern times there were accounts about hauntings poltergeists cryptozoology giants spirits sorcery witchcraft shapeshifting creatures simulacra magical cures strange phenomena unusual human powers and other bizarre tales many of these stories have now become obscured and forgotten to us this book contains a collection of 60 strange and paranormal stories reported from past reports news accounts statements and descriptions that were officially recorded in books journals articles and newspapers
