realities that have made and still make up the church's liturgical life: assemblies, eucharist, baptism, reconciliation, daily praise, the church's calendar, and its architecture. In history, Metzger stresses that if history is the teacher of life, the eyes of Christian faith allow us to recognize in it as well the mysterious presence of God who through the Spirit guides his people, and this happens above all in the liturgy.

New softcover edition with index, considered by Ratzinger devotees as his greatest work on the liturgy, this profound and beautifully written treatment of the great prayer of the Church will help readers rediscover the liturgy in all its hidden spiritual wealth and transcendent grandeur as the very center of our Christian life. Among the many liturgical issues that he covers in this work, Cardinal Ratzinger discusses fundamental misunderstandings of the Second Vatican Council's intentions for liturgical renewal, especially the orientation of prayer at the Eucharistic sacrifice, the placement of the tabernacle, and the posture of kneeling. Other important topics he discusses include the following: the essence of worship, Jewish roots, and new elements of the Christian liturgy; the historic and cosmic dimensions of the liturgy; the relationship of the liturgy to time and space; art, music, and the liturgy; active participation of all the faithful; gestures, posture, and vestments. My purpose here is to assist this renewal of understanding of the liturgy; its basic intentions coincide with what Guardini wanted to achieve. The only difference is that I have had to translate what Guardini did at the end of the First World War in a totally different historical situation into the context of our present day.

i am increasingly convinced that the decisive question that demands an answer from us is not so much how believers experience the liturgy but whether believers live from the liturgy they celebrate with these few words goffredo boselli captures the essence of this present work believers can celebrate the liturgy throughout their lifetimes without ever really drawing their lives from it and this is true of all believers laity clergy or monastics more than a century after the start of the liturgical movement and half a century after the start of the postconciliar liturgical reform we must ask the difficult question of whether the liturgy has or has not become the source of the spiritual life of believers for only by living from the liturgy can they receive the nourishment necessary to maintain a life of faith in today s world in the spiritual meaning of the liturgy goffredo boselli one of europe s foremost liturgical theologians offers an accessible and important guide for both scholars and interested laypeople to understand the meaning that permeates the liturgy and its implications for daily living readers will find here a resource to help understand the liturgy more fully interiorize it more effectively and live it more authentically

the word liturgy usually refers to what goes on inside a church building prayers songs and chants recital of the creed proclamation of the word the eucharist but st john chrysostom source of one of the best known orthodox liturgies spoke of two altars one within the sanctuary one

outside in the public square the author unfolds the way in which the liturgy itself resonates with an understanding of the church as both gathered for worship and sent out to the ends of the earth refreshed by the eucharistic bread and wine food for pilgrims in their everyday struggles he then goes on to show the relevance of this missionary vision not only for orthodox churches facing new contemporary challenges but also ecumenically

this major volume is a collection of the writings of joseph ratzinger pope emeritus benedict xvi on the theology of the liturgy of the church a subject of preeminence to him as a theologian professor and spiritual writer it brings together all his writings on the subject short and long giving his views on liturgical matters and questions over many years and from various perspectives he chose to have his writings on the liturgy for the first volume published of his collected works though listed as vol 11 because as he says in the introduction the liturgy of the church has been for me since my childhood the central reality of my life and it became the center of my theological efforts i chose fundamental theology as my field because i wanted first and foremost to examine thoroughly the question why do we believe but also included from the beginning in this question was the other question of the right response to god and thus the question of the liturgy by starting with the theme of liturgy in this volume ratzinger wants to highlight god s primacy the absolute precedence of the theme of god beginning with a focus on the liturgy he said tells us that god is first he quotes from the rule of st benedict nothing is to be preferred to the liturgy as a way of ordering priorities for the life of the church and of every individual he says that the fundamental question of the man who begins to understand himself correctly is how must i encounter god thus learning the right way of worshipping is the gift par excellence that is given to us by the faith the essential purpose of his writings on the liturgy is to place the liturgy in its larger context which he presents in three concentric circles first the intrinsic interrelationship of old and new testament without the connection to the old testament heritage the christian liturgy is incomprehensible the second circle is the relationship to the religions of the world the third circle is the cosmic character of the liturgy which is more than the coming together of a circle of people the liturgy is celebrated in the expanse of the cosmos encompassing creation and history at the same time

there are many forms of liturgy in the contemporary church but they are not always critically assessed liturgy can be viewed as a sealed encounter in which behind closed doors heaven and earth meet and participate in each other but it can also be viewed as an exercise in acceptance of the world outside where critical assessment is neglected in favor of socio political engagement for what passes as ethical on the world stage but true liturgy writes dr noordmans is accomplished in the full consciousness of sin and the sacrifice by which that sin is dealt with there can then be no unquestioned acceptance of the world by the same token there is no turning away from the world in an otherworldly flight to transcendence there is only the critical confrontation with ourselves and the world around us in the liturgy which as the apostle paul emphasizes takes place not behind church walls so much as in the field of the world matthew 13 38 the liturgy is restrained by the eschatological realizations of original sin and the death and resurrection of the savior as contained in the sacraments and the word can then operate in the field of the world as it ought to reformed liturgy as it has come down through the ages is dr noordmans is convinced a reflection of these realities and only such a liturgy can do justice to the gospel
