Culture and Personality 2000-11-01 wittgenstein famously remarked in 1923 darwin s

theory has no more relevance for philosophy than any other hypothesis in natural science yet today we are witnessing a major revival of interest in applying evolutionary approaches to philosophical problems philosophy after darwin is an anthology of essential writings covering the most influential ideas about the philosophical implications of darwinism from the publication of on the origin of species to today s cutting edge research michael ruse presents writings by leading modern thinkers and researchers including some writings never before published together with the most important historical documents on darwinism and philosophy starting with darwin himself included here are herbert spencer friedrich nietzsche thomas henry huxley g e moore john dewey konrad lorenz stephen toulmin karl popper edward o wilson hilary putnam philip kitcher elliott sober and peter singer readers will encounter some of the staunchest critics of the evolutionary approach such as alvin plantinga as well as revealing excerpts from works like jack london s the call of the wild ruse s comprehensive general introduction and insightful section introductions put these writings in context and explain how they relate to such fields as epistemology philosophy of mind philosophy of language and ethics an invaluable anthology and sourcebook philosophy after darwin traces philosophy s complicated relationship with darwin s dangerous idea and shows how this relationship reflects a broad movement toward a secular more naturalistic understanding of the human experience Distant Voices Still Heard 2000 this collection of 30 readings pairs classic and contemporary articles on key social psychology topics to illustrate the contrast between the old and the new and thus the progress and advances of the various aspects of the entire discipline

Introduction to Philosophy 2004 the story of noah s flood is one of the best loved and most often retold biblical tales the inspiration for numerous children s books and toys novels and even films whether as allusion archetype or literal presence the american landscape is peppered with recreations of the ark the story of noah s animals and the ark resonates throughout american culture and the world while most think of noah s ark as a dramatic myth others are consumed by the quest for geological and archeological proof that the flood really occurred persistent rumors of a large vessel on the mountain of ararat in turkey for instance have led many pilgrims and explorers over the centuries to visit that fabled peak recent finds suggest that there may have been a catastrophic flood on the shores of the black sea some 7 600 years ago is this then the reality behind the ancient tale of noah more to the point why does it matter what does the story of the flood mean to us and why does it so stir the collective imagination when the great abyss opened examines the history of our attempts to understand the flood from medieval jewish and christian speculation about the physical details of the ark to contemporary efforts to link it to scientific findings unraveling the mythical dimensions of the parallel mesopotamian flood stories and their deeper social and psychological significance j david pleins also considers the story s positive uses in theology and moral instruction noah s tale however has also been invoked as a means of justifying exclusion racism and anti homosexual views pro slavery advocates for example used the story of noah s curse on ham s son canaan to rationalize the enslavement of africans throughout this expansive and lively book pleins sheds new light on our continuing attempts to understand this ancient primal myth noah s flood he contends offers a unique case study that illuminates the timeless and timely question of how fact and faith relate

Metaphysics 2023 classic texts that define the disjunctivist theory of perception Gendered Voices, Feminist Visions 2011 each one of the 34 readings in this text is derived from rigorously collected field data and addresses the major questions about art in small scale societies what does art do what meanings does it convey who makes it how is it conceptualized by those who use it and how does it change with the passage of time over 100 illustrations provide visual references and the text represents a wide variety of cultures art forms not only visual arts but performing arts as well authorial voices and theoretical models for artists sociologists undergraduate and graduate readers

The Enduring Debate 2007-01-24 previously considered a way station on the road to hegel f w j von schelling is today enjoying a renaissance among continental philosophers and others these 14 essays bring schelling in tune with such luminaries as heidegger derrida bataille foucault deleuze levinas and irigaray and situate him squarely in the centre of current themes
