shortlisted for the 2008 young authors inner temple book prize are parallel importers the key to free trade breaking down long established national barriers for the benefit of all or do they instead just operate in a dubious grey market for their own profit free loading on the investment of innovators and brand owners to the ultimate detriment of everyone parallel trade is in turn lionised and demonised both in legal commentary and in the mainstream press as one might expect the truth lies somewhere between these extremes once goods have been manufactured they are put onto the market in one country by the manufacturer parallel trade occurs when the goods are subsequently transferred to a second country by another party the parallel trader who may be the end consumer the distinguishing feature of parallel trade is that the manufacturer did not intend those particular goods to end up in the second country the goods are normally described in that country as parallel imports or grey market goods the latter term is generally used to suggest that the trade while not exactly black market is not entirely lawful either understanding how european community law operates to permit or restrict parallel trade involves exploring a complex matrix of rules from the fields of free movement intellectual property competition and regulatory law including both private and public enforcement regimes where goods are parallel imported from outside the community these rules change and new considerations come into play such as obligations arising from the european economic area the world trade organization and bilateral free trade agreements the experience of europe which has grappled with the issues on a regional basis for more than four decades provides a fertile source for examination of parallel trade in other jurisdictions christopher stothers comprehensive treatment successfully analyses this difficult topic considering both community and national decisions

these days rural oklahoma is the last place anybody would look for leftist revolutionaries but in 1917 the area exploded into full blown insurrection the state s tenant farmers many of whom were socialist party members viewed the great war in europe as a conflict that benefited only the rich when the federal government enacted a draft an uprising in eastern oklahoma saw local townspeople skirmishing with rebellious farmers including whites blacks and american indians more than 250 men were arrested some sentenced for up to ten years imprisonment this is the backdrop of william cunningham s powerful novel the green corn rebellion first published in 1935 it tells the story of jim tetley who wants simply to be a good farmer if the banks will only let him as jim copes with poverty family rivalries and community tensions he must also weigh the need to respond to the call for armed rebellion although the insurrection itself succeeded only in undermining the socialist movement and fueling the red scare of the 1920s cunningham s incendiary writing has been compared to that of erskine caldwell a uniquely american story with roots set deep in oklahoma soil the green corn rebellion will attract all readers interested in the state s tumultuous history and in populist causes

spanning a decade 1992 2002 these speeches echo the theme that our health care system needs fundamental change and a revolutionary new design throughout the book berwick identifies innovations and ideas from a number of surprising sources a girls soccer team a sinking ship and the safety standards at nasa escape fire takes its title from the 1949 mann gulch tragedy in which thirteen young firefighters were trapped in a wildfire on a montana hillside the firefighter s leader wag dodge devised a creative solution for avoiding the encroaching fire he burned a patch of grass and lay down in the middle of the scorched earth his team refused to join him and most perished in the fire dodge survived berwick applies the lessons learned from the catastrophe to our ailing health care system we must not let ingrained processes obstruct life saving innovation not content to simply define the problems with our flawed system berwick outlines new designs and suggests practical tools for change name the problem build on success take leaps of faith look outside of the medical field set aims understand systems make action lists and the most fundamental of all never lose sight of the patient as the central figure

Regional Industrial Buying Guide

1995

constructing a policy making state sets out to examine the processes by which europeanization takes place europeanization is defined as the process by which the key decisions about public policies are gradually transferred to the european level or for new policy areas emerge at the european level this is in contrast to definitions of europeanization which focus on the adaption of member states to european public policies thus the main focus is whether a european union policy making state is being created via changes in the distribution of power between member states and the european level institutions over time in addition to several overview chapters such as on agenda setting in the eu there are twelve sectoral studies which analyse the differing trajectories and outcomes of the europeanization process and the extent to which the european union can make authoritative allocations the case studies have been selected in order to illustrate the degree of cross sectoral variation in the process of europeanization from sectors which have yet to see very much europeanization such as health to sectors such as competition policy which are almost fully europeanized the book is consciously multi theoretic in its approach drawing on a range of theories and concepts from theories of european integration to theories of public policy processes
