2015-03-02 this book is a sequel to *Twenty Thousand Leagues Under the Sea*. A party of British adventurers who had been ballooning but whose trip had ended by being cast away on a Pacific island, have various setbacks due to both pirates and convicts who had escaped from jails in mainland Australasia. They realise that at times there appears to be some kind of entity that is looking after them. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high-quality modern editions using the original text and artwork.

The Secret of the Island 2013-04-16 it takes time to know God become conscious of his presence and live in his power unfortunately the busyness of life often keeps us from that. Written over a period of five years, the Secret Series books contain a wealth of teaching that is based on Andrew Murray's mature and full experience in Christ. *The Secret of the Abiding Presence* contains one month of daily selections that focus on the need for quiet, uninterrupted communion with him.

The Secret of the Abiding Presence 2017-04-11 while the circumnavigation of the solar system seems farfetched, it may not be once the problem of effective anti-gravitational control is solved. In this book, I have assumed that the many researchers now actually at work on this problem will achieve such a result in the next decade. It is not at all impossible that they may, for we all know that the more minds that work at a problem, the sooner it will be solved. The discovery of a means of negating, reversing, or otherwise utilizing the immense force of gravitation for space flight purposes is now thought to be within the bounds of probability. It should occur some time within the next hundred years, possibly in even the short period I assume here.
