The Photographic Image in Digital Culture 2013-11-05 what does a new technology of images mean for the ways in which we encounter and use images in everyday life in advertising entertainment news evidence and within our domestic and private worlds for our sense of self and identity our view of the body and our sexuality the photographic image in digital culture explores the technological transformation of the image and its implications for photography contributors investigate such issues as the relationship of technological change to visual culture the new discourses of techno culture medicine's new vision of the body and interactive pornography they also examine the cultural meanings of new surveillance images shifts in the domestic consumption of images and their relationship to memory history and biography the social uses of video and computer games and the changing role of photography as document and as art

Visual Impact 2008-12-01 from the office to domestic interiors to shops images surround us in modern life the internet has increased this visual onslaught exponentially is there a systematic order to this seemingly endless array of pictures and depictions looking at picture making traditions around the world the author demonstrates how schemes of depiction are ordered throughout all ages and across all cultures drawing on a wide range of examples from painting and drawing to film photography and the visual impact analyzes the theory and practice of visual representation pictures and images provide a cognitive context through which people can explore and understand their world they frame and shape daily life by considering the techniques and systems that inform visual displays the author examines how cultural values and traditions shape particular visual styles drawing on the growing field of visual anthropology visual impact sets image making in an historical and global context and uses it as a window for exploring the human condition at a deeper level anyone interested in the cultural role of art film the internet and interactive media will find this book an exciting and stimulating read

The Image Society 2002 the term visual culture crops up everywhere but what does it mean could we say there is a deluge of images does this threaten other cultural assets such as the word what do we stand to lose and what do we stand to gain the netherlands foto institut nfi invited six writers and academics to write essays on these issues in order to stimulate discussion about images and visual culture the result is a bundle of essays representing a broad range of opinions and ideas about today's image society on photography film video the internet and television and on the changes stemming from the digitization of these media the image society is a guide for everyone who has an interest in the world of the image book jacket

Images at Work 2018 images can be studied in many ways as symbols displays of artistic genius adjuncts to texts or naturally occurring phenomena like reflections and dreams each of these approaches is justified by the nature of the image in question as well as the way viewers engage with it but images are often something more when they perform in ways that exhibit a capacity to act independent of human will images come alive they move us to action calm us reveal the power of the divine change the world around us in these instances we need an alternative

model for exploring what is at work one that recognizes the presence of images as objects that act on us building on his previous innovative work in visual and religious studies david morgan creates a new framework for understanding how the human mind can be enchanted by images in images at work in carefully crafted arguments morgan proposes that images are special kinds of objects fashioned and recognized by human beings for their capacity to engage us from there he demonstrates that enchantment as described is not a violation of cosmic order but a very natural way that the mind animates the world around it his groundbreaking study outlines the deeply embodied process by which humans create culture by endowing places things and images with power and agency these various agents human and non human material geographic and spiritual become nodes in the web of relationships thus giving meaning to images and to human life marrying network theory with cutting edge work in visual studies and connecting the visual and bodily technologies employed by the ancient greeks and romans to secular icons like che guevara abraham lincoln and mao images at work will be transformative for those curious about why images seem to have a power of us in ways we can t always describe

Into the Image 2002-11-01 first published in 2004 routledge is an imprint of taylor francis an informa company

The Image Factory 2003-11 this title exposes the interior workings of the visual content industry which produces approximately 70 per cent of the images that define consumer cultures it combines original research on stock photography with a theoretical take on the circulation of images in contemporary culture

Images 2006-12-04 images a reader provides a key resource for students academics practitioners and other readers engaged in the critical theoretical and practical study of images the reader is concerned with the notion of the image in all its theoretical critical and practical contexts uses and history it provides a map of the differences and similarities between the various disciplinary approaches to images breaking the ground for a new interdisciplinary study of images in the arts and humanities and beyond the selection of over 80 key readings across the domains of philosophy art literature science critical theory and cultural studies tells the story of images through intellectual history from the bible to the present by including both well established writings and more recent innovative research the reader outlines crucial developments in contemporary discourses about images

Image Science 2018-01-30 almost thirty years ago w j t mitchell s iconology helped launch the interdisciplinary study of visual media now a central feature of the humanities mitchell s now classic work introduced such ideas as the pictorial turn the image picture distinction the metapicture and the biopicture these key concepts imply an approach to images as true objects of investigation an image science continuing with this influential line of thought image science gathers mitchell s most recent essays on media aesthetics visual culture and artistic symbolism the chapters delve into such topics as the physics and biology of images digital photography and realism architecture and new media and the

occupation of space in contemporary popular uprisings

Moving Images, Culture, and the Mind 2000 since the rise of cinema in 1896 moving images have been of increased importance in the construction of culture and society and for the ways in which we interact with reality and with each other with the coming of television on a global mass scale in the 1960 s and the birth of computers and the information society in the 1980 s we are right now in an expanding and changing culture highly influenced by visual media

Visual Culture 2013-03-15 we can no longer see much less teach transhistorical truths timeless works of art and unchanging critical criteria without a highly developed sense of irony about the grand narratives of the past declare the editors who also coedited visual theory painting and interpretation 1990 the field of art history is not unique in finding itself challenged and enlarged by cultural debates over issues of class ethnicity nationality sexual orientation and gender visual culture assembles some of the foremost scholars of cultural studies and art history to explore new critical approaches to a history of representation seen as something different from a history of art contributors andres ross michael ann holly miekebal david summers constance penley kaja silverman ernst van alphen norman bryson wolfgang kemp whitney davis thomas crow keith moxey john tagg lisa tickner ebook edition note ebook edition note all illustrations have been redacted

What Do Pictures Want? 2013-12-23 why do we have such extraordinarily powerful responses toward the images and pictures we see in everyday life why do we behave as if pictures were alive possessing the power to influence us to demand things from us to persuade us seduce us or even lead us astray according to w j t mitchell we need to reckon with images not just as inert objects that convey meaning but as animated beings with desires needs appetites demands and drives of their own what do pictures want explores this idea and highlights mitchell s innovative and profoundly influential thinking on picture theory and the lives and loves of images ranging across the visual arts literature and mass media mitchell applies characteristically brilliant and wry analyses to byzantine icons and cyberpunk films racial stereotypes and public monuments ancient idols and modern clones offensive images and found objects american photography and aboriginal painting opening new vistas in iconology and the emergent field of visual culture he also considers the importance of dolly the sheep who as a clone fulfills the ancient dream of creating a living image and the destruction of the world trade center on 9 11 which among other things signifies a new and virulent form of iconoclasm what do pictures want offers an immensely rich and suggestive account of the interplay between the visible and the readable a work by one of our leading theorists of visual representation it will be a touchstone for art historians literary critics anthropologists and philosophers alike a treasury of episodes generally overlooked by art history and visual studies that turn on images that walk by themselves and exert their own power over the living norman bryson artforum

Image Studies 2013 image studies provides an engaging introduction to visual studies analysis and an account of existing and emergent visual

culture debates along with chapters on a range of topics including consumer culture and identity photography and digital imaging painting and drawing the moving image the relationship between image and text including reference to text in art comics and animation and scientific imaging written in an engaging and accessible way the text will also include extracts of existing critical materials each chapter will include key set readings including short extracts from existing literatures with accompanying study notes and questions the chapters will also include a range of critical and creative tasks designed to bring the academic study of visual culture into direct contact with practical aspects of visual culture and image making image studies is a new text aimed predominantly at undergraduate students in visual culture but which will also be useful for media studies students and arts students more generally

Contested Culture 1991 this volume explores the many facets and ongoing transformations of our visual identities in the twentieth and twenty first centuries its chapters engage with the constitution of personal national and cultural identities at the intersection of the verbal and the visual across a range of media they are attentive to how the medialities and im materialities of modern image culture inflect our conceptions of identity examining the cultural and political force of literature films online video messages rap songs selfies digital algorithms social media computer generated images photojournalism and branding among others they also reflect on the image theories that emerged in the same time span from early theorists such as charles s peirce to twentieth century models like those proposed by roland barthes and jacques derrida as well as more recent theories by jacques rancière w j t mitchell and others the contributors of imaging identity come from a wide range of disciplines including literary studies media studies art history tourism studies and semiotics the book will appeal to an interdisciplinary readership interested in contemporary visual culture and image theory

Imaging Identity 2019-11-30 we live in a time in which photographs have become extraordinarily mobile they can be exchanged and circulated at the swipe of a finger across a screen the digital photographic image appears and disappears with a mere gesture of the hand yet this book argues that this mobility of the image was merely accelerated by digital media and telecommunications photographs from the moment of their invention set images loose by making them portable reproducible projectable reduced in size and multiplied the fact that we do not associate analogue photography with such mobility has much to do with the limitations of existing histories and theories of photography which have tended to view photographic mobility as either an incidental characteristic or a fault photography the unfettered image traces the emergence of these ways of

understanding photography but also presents a differently nuanced and materialist history in which photography is understood as part of a larger development of media technologies it is situated in much broader cultural contexts caught up in the european colonial ambition to grasp the world and in the development of a new artificial second nature dependent on the large scale processing of animal and mineral materials focussing primarily on victorian and 1920s 30s practices and theories it demonstrates how photography was never simply a technology for fixing a fleeting reality

Image Science 2015 dick hebdige looks at the creation and consumption of objects and images as diverse as fashion and documentary photographs 1950 s streamlined cars italian motor scooters 1980 s style manuals biff cartoons the band aid campaign pop art and promotional music videos he assesses their broad cultural significance and charts their impact on contemporary popular tastes

Photography 2023-01-06 visual culture provides an invaluable resource of over 30 key statements from a wide range of disciplines including four editorial essays which place the readings in their historical and theoretical context although underpinned by a focus on contemporary cultural theory this reader puts issues of visual culture and the rhetoric of the image at center stage

Hiding in the Light 2003-09-02 image has become a commodity an essential asset both to individuals and organizations when image is threatened we are compelled to do repair work to help us save face in the 1990s william benoit developed an encompassing theory of image restoration guiding us through the different options available to organizations and individuals involved in a crisis however the study of image restoration has traditionally remained highly ethnocentric focused on western culture and assuming that individuals and organizations respond to crises in similar ways regardless of the particular aspects of the culture to which they belong this study applies hofstede s model of cultural differences to benoit s theory of image restoration specifically it analyzes the examples of two politicians involved in sexual scandals john edwards from the united states and dominique strauss khan from france it concludes that cultural context is extremely important in the study of image restoration and that cultural and media variables play an important role in the effectiveness of image repair strategies

Visual Culture 1999-07-06 powerful and often controversial news pictures promise to make the world at once immediate and knowable yet while many great writers and thinkers have evaluated photographs of atrocity and crisis few have sought to set these images in a broader context by defining the rich and diverse history of news pictures in their many forms for the first time this volume defines what counts as a news picture how pictures are selected and distributed where they are seen and how we critique and value them presenting the best new thinking on this fascinating topic this book considers the news picture over time from the dawn of the illustrated press in the nineteenth century through photojournalism s heyday and the rise of broadcast news and newsreels in the twentieth century and into today s digital platforms it examines the many kinds of images sport fashion society celebrity war catastrophe and exoticism and many mediums including photography painting wood

engraving film and video packed with the best research and full colour illustrations throughout this book will appeal to students and readers interested in how news and history are key sources of our rich visual culture

The Role of Culture in Image Restoration 2014-03-06 scholars from science art and humanities explore the meaning of our new image worlds and offer new strategies for visual analysis we are surrounded by images as never before on flickr facebook and youtube on thousands of television channels in digital games and virtual worlds in media art and science without new efforts to visualize complex ideas structures and systems today's information explosion would be unmanageable the digital image represents endless options for manipulation images seem capable of changing interactively or even autonomously this volume offers systematic and interdisciplinary reflections on these new image worlds and new analytical approaches to the visual imagery in the 21st century examines this revolution in various fields with researchers from the natural sciences and the humanities meeting to achieve a deeper understanding of the meaning and impact of the image in our time the contributors explore and discuss new critical terms of multidisciplinary scope from database economy to the dramaturgy of hypermedia from visualizations in neuroscience to the image in bio art they consider the power of the image in the development of human consciousness pursue new definitions of visual phenomena and examine new tools for image research and visual analysis

Getting the Picture 2020-09-09 we live in a world of the image in many ways images have replaced words as the defining aspect of cultural identity while at the same time they have become part of our global culture the rapidly developing discipline of visual cultural studies has become the key area for examining the issues of the image visual cultures and critical theory provides students with a clear guide for understanding ideas of critical theory through the visual taking up a range of themes such as spectatorship pleasure power doubles hallucination and the frame the book explains them within the context of the theoretical developments in psychoanalysis cultural theory postmodernism queer theory gender studies and narrative theory

Imagery in the 21st Century 2011-07-29 in 1992 w j t mitchell argued for a pictorial turn in the humanities registering a renewed interest in and prevalence of pictures and images in what had been understood as an age of simulation or an increasingly extensive and diverse visual culture however in what is often characterized as a society of the spectacle we still do not know exactly what pictures or images are what their relation to language is how they operate on observers and the world how their history is to be understood and what is to be done with or about them in this seminal collection of essays the first to be devoted to the pictorial turn theorists from across the humanities and social sciences representing the disciplines of art history philosophy geography media studies visual studies and anthropology are brought together with a paleontologist and practising artists to consider amongst other things the relation between pictures and images the power of landscape the nature of political images the status of images in the natural sciences the life of images and the pictorial uncanny with these topics in mind picture theory and iconology

exceed in scope the objects of visual culture conventionally understood this book was published as a special issue of culture theory and critique

Visual Cultures and Critical Theory 2003-07-31 this book argues that ubiquitous media and user created content establish a new perception of the world that can be called particulate vision involving a different relation to reality that better represents the atomization of contemporary experience especially apparent in social media drawing on extensive original research including detailed ethnographic investigation of camera phone practices in hong kong as well as visual analysis identifying the patterns regularities and genres of such work it shows how new distributed forms of creativity and subjectivity now work to shift our perceptions of the everyday the book analyses the specific features of these new developments the components of what can be called a general aesthesia and it focuses on the originality and innovation of amateur practices developing a model for making sense of the huge proliferation of images in contemporary culture discovering rhythms and tempo in this work and showing why it matters

The Pictorial Turn 2013-09-13 the pervading theme of this book is the construction and allocation of identity especially through images and imagery the essays analyse how the dominant social discourses and imageries construct identity or assign subject positions in relation to the categories of race nation region gender and language the volume is designed to inform the study of those categories in cultural studies sociology anthropology gender studies literary studies philosophy and history its coverage is geographically global multidisciplinary and theoretically eclectic but also accessible the authors include both established and rising scholars from historical literary media gender and cultural studies this innovative collection will appeal to all those who are interested in the mechanisms of constructing and evolving personal and group identities in past and present

Culture, Aesthetics and Affect in Ubiquitous Media 2013-10-23 this is a book about how to read visual images from fine art to photography film television and new media it explores how meaning is communicated by the wide variety of texts that inhabit our increasingly visual world but rather than simply providing set meanings to individual images visual culture teaches readers how to interpret visual texts with their own eyes while the first part of the book takes readers through differing theoretical approaches to visual analysis the second part shifts to a medium based analysis connected by an underlying theme about the complex relationship between visual culture and reality howells and negreiros draw together seemingly diverse methodologies while ultimately arguing for a polysemic approach to visual analysis the third edition of this popular book contains over fifty illustrations for the first time in colour included in the revised text is a new section on images of power fear and seduction a new segment on video games as well as fresh material on taste and judgement this timely edition also offers a glossary and suggestions for further reading written in a clear lively and engaging style visual culture continues to be an ideal introduction for students taking courses in visual culture and communications in a range of disciplines including media and cultural studies sociology and art and design

Image Into Identity 2006 bringing the image into dialogue with the imagination mimesis and performativity christoph wulf illuminates the historical cultural and philosophical aspects of the relationship between images and human beings looking both at its conceptual and physical manifestations wulf explores the cultural power of the image he shows that images take root in our personal and collective imaginaries to determine how we feel how we perceive the arts and culture and how our bodies respond with physical actions in games and dance to rituals and gesture by showing how imagination occupies an essential place in our daily conduct wulf makes a significant contribution to how we think about the role of images in culture the arts and society

Visual Culture 2019-04-08 a provocative compelling and entertaining look at how the power of images dominates every aspect of our lives

Human Beings and Their Images 2023-09-21 this book within the vision of the study on the image history clearly manifests the development of chinese image science and technology of over 2000 years based on compendium while having briefly sorted out expositions by scientists since ancient times in china demonstrates the spiritual course ideas of thinking and forms of life and reveals profound humane ideas basis of sentiments and styles of the spirit featured by chinese image culture the historic outline of images is clear cut along with authenticated inter attestation for clues of images and texts historic facts concerning images are ecologically diversified while historic documents about images are properly chosen in addition to the integration between liberal arts and science and perfect combination between images and texts blessed with nice integration between images and texts this book serves as reference to experts scholars undergraduates and postgraduates related to the study on image history history of science and technology study of history and news communication

All Consuming Images 1999 these essays address the epistemological aesthetic and political implications of scale in both scholarly and artistic work from the mass image in vernacular culture to transformations of photography in contexts of big data and artificial intelligence they explore the massification of photography

Image Transfer 2010 this volume offers transdisciplinary perspectives on the study of acting and performance in moving image forms it assembles 26 international scholars from dance theatre film media and cultural studies art history and philosophy to investigate the art of acting and the presence of the human body in analog and digital film animation and video art the volume includes classical case studies and essays devoted to acting history and acting and genres but its particular emphasis is on introducing a wide range of groundbreaking theoretical approaches from continental and analytic philosophy to new media theory and cognitivist research all of which interrogate the fundamental conceptions of act and actor that underwrite both popular and academic notions of performance in moving image culture

A Brief History of Image Science and Technology in China 2021-06-26 cinema archives memories conserves the past and rewrites histories as much as the sinophone embodies differences contemporary sinophone cinemas in taiwan hong kong and the people s republic of china invest

various images of contested politics in order to assert different histories and self consciousness as such sinophone cinemas and image production function as archives with the capability of reinterpreting the multiple dimensions of past and present the politics of memory in sinophone cinemas and image culture investigates sinophone films and art projects that express this desire for archiving and reconfiguring the past comprising ten chapters this book brings together contributors from an array of disciplines artists filmmakers curators film critics and literary scholars to grapple with the creative ambiguities of sinophone cinemas and image culture blending eclectic methods of scholarly research knowledge making and art making into a new discursive space the chapters address the diverse complexities of the cinematic culture and image production in sinic language regions this book is a valuable resource for students and scholars of film studies china studies east asian studies taiwan studies and sinophone studies as well as professionals who work in the film industry

Photography Off the Scale 2021-01-31 what does a new technology of images mean for the ways in which we encounter and use images in everyday life in advertising entertainment news evidence and within our domestic and private worlds for our sense of self and identity our view of the body and our sexuality the photographic image in digital culture explores the technological transformation of the image and its implications for photography contributors investigate such issues as the relationship of technological change to visual culture the new discourses of techno culture medicine s new vision of the body and interactive pornography they also examine the cultural meanings of new surveillance images shifts in the domestic consumption of images and their relationship to memory history and biography the social uses of video and computer games and the changing role of photography as document and as art
