Costs of Producing Selected Crops in the United States--1978, 1979, 1980, and Projections for 1981 1981 research on cytoskeletal elements of eukaryotic cells has been expanding explosively during the past 5 to 10 years due largely to the employment of electron and immunofluorescent microscopy significant results have been obtained which have provided interesting new insights into the dynamics of nucleated cells at the structural physiological as well as developmental levels while a substantial amount of knowledge has accumulated on the function of microfilaments and microtubules the roles of the third major class of cytoskeletal structures in vertebrate cells the intermediate filaments have largely resisted clarification the investigation of cultured cells and of tissues from various developmental stages has furnished a host of information on the inter and intracellular distribution of the different types of intermediate filaments and led to the contention that they have a structural and organizing function in the cytoplasm of vertebrate cells however the results of recent experiments that vertebrate cells can function perfectly in the absence have shown complete absence of cytoplasmically extended intermediate filament meshworks it is legitimate to suppose therefore that their function in vertebrate cells is much more subtle and complex than generally presumed our interest in the structure and function of intermediate filament proteins was initiated approximately 7 years ago while working on the regulation of macromolecular synthesis in picornavirus infected mammalian cells in attempts to demonstrate virus induced changes in the nuclear protein components of the host cells the nonionic detergent extraction method was used to purify nuclei

1978, 1979, 1980 1977 new york magazine was born in 1968 after a run as an insert of the new york herald tribune and quickly made a place for itself as the trusted resource for readers across the country with award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating new york as both a place and an idea
