## **Cervantes and Modernity**

2007

graf argues that the doubts expressed by both historicists and postmodernists regarding the progressive nature of don quijote are exaggerated neither do interpretations that abstain from this debate by emphasizing authorial ambivalence or positioning the novel at a crossroads seem as responsible as they once did beyond these skeptical and neutral alternatives there are key steps forward in cervantes s worldview these four essays detail don quijote s anticipations of many of the same ideas and values that drive today s multiculturalism feminism secularism and materialism an important thesis here is that the enlightenment remains the best vantage point from which to appreciate the novel s relation to the discourses of such movements thus voltaire s candide 1759 feijoo s defensa de las mujeres 1726 and hobbes leviathan 1651 are each shown to be logical extensions of some of cervante s most fundamental propositions finally this book will still be of interest to specialists immune to the ideological anxieties arising from debates over notions of modernity graf also explores the interrelated meaning of a number of don quijote s symbols characters and episodes pinpoints several of the novel s most important classical and medieval sources and unveils for us its first serious english reader

## ***The Persistence of Modernity***

essays on aesthetics ethics and postmodernism these four essays drawn from two

books by one of germany's foremost philosophers go to the heart of a number of contemporary issues: adorno's aesthetics, the nature of a postmodern ethics, and the persistence of modernity in the so-called postmodern age.

## **Habermas and the Unfinished Project of Modernity**

1997

This collection of ten essays offers the first systematic assessment of Jürgen Habermas's philosophical discourse of modernity, a book that defended the rational potential of the modern age against the depiction of modernity as a spent epoch. The essays, of which four are newly commissioned and five were published in the journal *Praxis International* and one by Habermas first appeared in translation in *New Critique*, are divided into two sections: critical rejoinders and thematic reformulations. An opening essay by David Entrèves sets out the main issues and orients the debate between Habermas and the postmodernists by identifying two different senses of responsibility: a responsibility to act versus a responsibility to otherness, an openness to difference, dissonance, and ambiguity. These are linked with two alternative understandings of the primary function of language: action-orienting versus world-disclosing. This is a fruitful way of looking at the issues that Habermas has raised in his attempt to resurrect and complete the project of enlightenment. Habermas's essay discusses the main themes of his book in the context of a critical engagement with neoconservative cultural and political trends. The main body of essays offer an interesting collection of points of view for and against Habermas's position by philosophers, social scientists, intellectual historians, and literary critics. Contributors: Introduction, Maurizio Passerin d'Entrèves, *Modernity versus Postmodernity*, Jürgen Habermas, *Critical Rejoinders*, Fred Dallmayr, Christopher Norris, David C. Hoy, James Schmidt, Joel White, *Thematic Reformulations*, James Bohman, Diana Coole, Jay M. Bernstein, David Ingram.

## **Theories of Distinction**

2022

The essays in this volume by Germany's leading social theorist of the late twentieth century formulate what he considered to be the preconditions for an adequate theory of modern society. The first two essays deal with the modern European philosophical and scientific tradition, notably the legacy of Edmund Husserl. The next four essays concern the crucial notion of observation as defined by Luhmann; they examine the history of paradox as a logical problem and as a historically conditioned feature of rhetoric; deconstruct the thinking of Jacques Derrida, especially his language-centered allegiances; discuss the usefulness of Spencer Brown's laws of form; and assess the consequences of observation and paradox for epistemology. The following essays present Luhmann's theory of communication and his articulation of the difference between thought and communication: a difference

that makes clear one of luhmann s most radical and controversial theses that the individual not only does not form the basic element of society but is excluded from it altogether situated instead in the environment of the social system the book concludes with a polemic against the critical thought of the frankfurt school of postwar german social thought

the study of religious education is of great interest in analyzing how schools and

educational authorities address the demands of multicultural and multi religious societies and states as diversity increases through migration globalization and conflicts schools are faced with equally diverse challenges one of which is the religious and cultural diversity that characterizes schools and communities while many studies have focused on this change and its impact in politics school and classroom relatively few have focused on how teachers and educators have fared sitting between the new policies and school demographics teachers and educators have shaped the policy in their engagements the study of life trajectories shows that the lines between religion and religious education are blurred in personal life histories and that positions can shift due to personal and contextual developments they point to the innovative and unexpected turns that individuals trace in their personal life journeys this book reminds us that we need to pay more attention to the teachers principals managers and public intellectuals who shape and are shaped by the changing context of religion and religious education this book was originally published as a special issue of religion education

bound to be free explores the scriptural concepts of church ekklesia freedom eleutheria and truthful speech parrhesia showing not only that the proper meanings of three concepts interpenetrate one another but also that rending them asunder lies at the root of christian division today according to reinhard hutter the crucial interrelationship of these three concepts has long been obscured by ongoing church division separated from each other many christians assume that freedom can be maintained and truthful speech preserved only at the cost of unity others assume that christian unity can be attained only if freedom and truthful speech are narrowly circumscribed in their proper exercise christian division issues from the all too familiar individualistic accounts of church freedom and

speech that have haunted modernity and clouded the proclamation of the gospel this book shows that here at the beginning of the twenty first century it is imperative that christians attend to this crucial interrelationship and its source in the god of the gospel hutter discusses the meaning role and importance of each concept in turn engaging along the way a wide range of classical and contemporary voices in theology philosophy and culture that reveal in different ways how church freedom and truthful speech support one another bound to be free is a groundbreaking work that challenges common approaches to ecumenism and points a fruitful new course ahead
