had obtained the diploma of the and had retired from the army since those ancient times i have continued to treat this work as a horse owner's note book in which i have recorded all the useful veterinary information i have been able to obtain about horses from personal experience friends and books hence it is invaluable to me as a work of reference for if i had not written it i would have probably forgotten at least half of what i had seen heard and read i trust that it will be of equal benefit to my readers whether they are horsemen of ordinary education or veterinary surgeons the fact that i have spent a large portion of my life in many foreign countries ought to make this book of special use to english horse owners who live abroad i have employed type of different sizes with the object of maintaining the character of this book as a means of ready reference for non professional readers without having to exclude information which they might consider to be too abstruse for their requirements but which might prove useful to horse owners possessing more scientific knowledge about the publisher forgotten books publishes hundreds of thousands of rare and classic books find
