i m not a giant i m just a big kid is a book for any
child that has been treated differently because of
their size sometimes people will treat you differently
because your body or height is not the same as theirs
and that can be very frustrating to a young child if a
child is very big in size we expect them to act older
but they re still a kid just bigger than most if a
child is very small we tend to treat them more like a
baby even though they could be the same age as the
other children just smaller enjoy reading this fun
filled journey with your students or child of a kid
that was picked on terribly by other classmates because
he was bigger than everyone else in the classroom after
reading the many funny gross twists and turns in the
story of eric wanting to be smaller like everyone else
i believe all children will learn to accept themselves
the way they were made and others will learn to accept
them too enjoy the book but be careful it can get a
little gross

bigger than you know this book is for young children
who might be feeling small in a big big world the book
s concept comes from a public speaking technique that
professionals use before speaking to a crowd when you
re feeling intimidated instead imagine yourself as
something bigger to feel empowered so that you can
handle anything whether it s dealing with bullying
anxiety or family problems children often need this
type of empowerment and encouragement to manage in a
big and tough world in addition because of the simple
storyline and repetition young children can easily read
the book and recognize simple words which helps them

big ideas for little kids includes everything a teacher
a parent or a college student needs to teach philosophy
to elementary school children from picture books
written in a clear and accessible style the book
explains why it is important to allow young children
access to philosophy during primary school education
wartenberg also gives advice on how to construct a
learner centered classroom in which children discuss
philosophical issues with one another as they respond
to open ended questions by saying whether they agree or
