synod on synodality is one of the most insidious action ever of a pope in the history of humanity since its beginning which will definitely lead to its ultimate death the synod in a true socio marxist humanistic spirit rejects the true authority given by christ to the church the ultimate act of destruction of the institution founded by christ the author well versed in these games shows how francis as pope in a way rejects the elite governing body and reaches out to any untrained humans apparent empowerment in true marxist style in order to surreptitiously arrive at his own predetermined goal through the synod on synodality the author having been instrumental in exposing such frauds right through his youth brings out the power game play at work in this people are merely used through lies and intrigues as a pawn to achieve one s own insidious agenda a predetermined end detrimental to their salvation thus the author analyses the mind set of francis to reaffirm the point through pertinent select examples to keep the book short and the urgency to reach out palpable to assuage the faithful the author briefly and logically brings out the reason for such a catastrophic situation in the church and the way to deal with it ultimately the book doesn t disappoint but consoles one in the right hope that leads to peace why wait pick up a copy of the book now so as to save your soul and of the many

## **Ticks and Crosses 2017-06-19**

anders e nielsen presents a fresh look on new testament eschatology by analysing the gospel of luke and the book of acts he first of all considers whether ancient literary expressions of farewell motif may or may not lead to an outlook of some sort of transcendental nature which could play an active role in the composition of the text as read text he concludes that in a fairly representative number of non biblical as well as biblical farewell addresses we do find transcendental outlooks with eschatological implications furthermore these particular outlooks seem to be at work in close relation to the approaching death of the intended speaker of the addresses against this background the two major farewell addresses the one of jesus in luke 22 and the one of paul in acts 20 are at great length analysed by means of a rhetorical and text linguistic approach anders e nielsen divides his exegetical theological findings into three main points first of all the traditional hypothesis of an imminent expectation of the parousia is seen as problematic because the eschatology in luke seems to be less a matter of chronology and more a question of quality secondly some of the sayings in a hellenistic work like luke acts may sometimes be free to express a vertical transcendent aspect with individual eschatological associations while other phases are sufficiently vague to call up in the audience both individual and or collective eschatological connotations thirdly all this put together suggests that luke s religious language does in fact not play down eschatology on the contrary anders e nielsen suggests that one can speak of some sort of applied eschatology in the sense that all the relevant expressions in the compositions examined suggest a far more parenetic or prescriptive semantic function than an informative one
