england wants a bible and no one wants other people telling them they should religion is supposed to be a private matter undeterred these christians attempt to spark a renewed interest in the word of god they ve turned away from publishing and toward publicity to make the bible heard god s agents is a study of how religion goes public in today s world based on over three years of anthropological research matthew engelke traces how a small group of socially committed christians tackle the challenge of publicity within what they understand to be a largely secular culture in the process of telling their story he offers an insightful new way to think about the relationships between secular and religious formations our current understanding of religion needs to be complemented by greater attention to the process of generating publicity engelke argues that we are witnessing the dynamics of religious publicity which allows us to see the ways in which conceptual divides such as public private religious secular and faith knowledge are challenged and redefined by social actors on the ground represents the first integrated effort to deal with age as a crucial variable in the social system of special interest to sociologists for whom the sociology of age seems destined to become a special field this is a thorough revision of the 2007 publication and includes five new chapters and brings all existing chapters completely up to date there have been many advances in hydropower and renewable technologies since the original publication and europe and particularly scandinavia plan many more in the coming years from a review of the original edition it is important to note that the author deals well with his selected topics i recommend this book to all readers who wish to learn more about the economics of hydroelectric power amitrajeet a batabyal interfaces vol 39 1 january february 2009 since the publication of the first edition of this book the area of mathematical finance has grown rapidly with financial analysts using more sophisticated mathematical concepts such as stochastic integration to describe the behavior of markets and to derive computing methods maintaining the lucid style of its popular predecessor this concise and accessible introduction covers the probabilistic techniques required to understand the most widely used financial models along with additional exercises this edition presents fully updated material on stochastic volatility models and option pricing as well as a new chapter on credit risk modeling it contains many numerical experiments and real world examples taken from the authors own experiences the book also provides all of the necessary stochastic calculus theory and implements some of the algorithms using scilab key topics covered include martingales arbitrage option pricing and the black scholes model ever since he was a geckling p d puddleskipper dreamed of exploring the world just beyond the kapok tree for p d life was more than simply gathering grubs and lounging about in the sun like other geckos life was an adventure but not until a terrible metal beast attacks the emerald forest does he finally get his chance piloting his latest invention an airship called the puddlejumper p d leads his friends fellow lizard flora springtail a tree frog named blinky and a sleepy tree sloth named waffles on an incredible journey in search of a new home join the crew of the puddlejumper as they bravely venture forth across the emerald forest battling sticky fingered fruit bats and slippery snakes exploring far away places looking for lost treasure and making new friends along the way from way up peak to the rollie roo river the cave of song to the great kapok tree p d and his friends learn the value of friendship through their exciting adventures many observers greeted the second vatican council 1962 65 as the most important religious event in the twentieth century its implementation and impact are still being felt in the catholic church the wider christian world and beyond one sea change that vatican ii brought concerned roman catholic attitudes towards judaism islam and other religions gerald o collins breaks fresh ground by examining in detail five documents from the council which embodied a new mindset about other religious faiths and mandated changes that quickly led to international and national dialogues between the catholic church and the followers of non christian religions the book also includes chapters on the insights that prepared the way for the rethinking expressed by vatican ii and on the follow up to the council s teaching found in the work of pope john paul ii and jacques dupuis o collins ably illustrates how the council made a startling advance in official catholic teaching

about followers of other living faiths carefully researched the book is written in the clear accessible style that readers of previous works by o collins will recognize star wars meets ridley pearson s kingdom keepers in this high stakes intergalactic adventure the moon platoon is the first book in an action packed series for tweens that s perfect for fans of eoin colfer and lisa mcmann in the year 2085 benny love is pretty used to surviving on what he and his family can scavenge on earth but when he wins a scholarship for a life changing trip to visit the lunar taj the first ever resort on the moon benny thinks he finally has a chance to give his family a better life benny can t wait to fly his very own space runner practice reverse bungee jumping and explore craters on the dark side of the moon but he gets more than he expected when he and the other kids discover the moon has secrets no one else knows about benny is a long way from home and soon there might not be an earth to go back to
