## **Manual for the Commissariat and Transport Corps**

1883

the de havilland dh 98 mosquito was a british multi role combat aircraft with a two man crew that served during and after the second world war it was one of few operational front line aircraft of the era constructed almost entirely of wood and was nicknamed the wooden wonder the mosquito was also known affectionately as the mossie to its crews originally conceived as an unarmed fast bomber the mosquito was adapted to a wide range of bombing roles it was also used by boac as a fast transport to carry small high value cargoes to and from neutral countries through enemy controlled airspace the book collates a variety of pamphlets and manuals on the plane that were produced throughout the war for the benefit of pilots and others associated with the aircraft

## **The Machine Gun, History, Evolution, and Development of Manual, Automatic, and Airborne Repeating Weapons**

1951

the hawker hurricane was a british single seat fighter aircraft that was designed and predominantly built

by Hawker Aircraft Ltd for the RAF although overshadowed by the Spitfire during the Battle of Britain the Hurricane accounted for 60 of the RAF's air victories in the battle and served in all the major theatres of the Second World War. The 1930s design evolved through several versions and adaptations resulting in a series of aircraft that acted as interceptor fighters, fighter bombers also called Hurricane bombers and ground support aircraft. Further versions known as the Sea Hurricane had modifications that enabled operation from ships. Some were converted as catapult-launched convoy escorts known as Hurricane fighters. More than 14,583 Hurricanes were built by the end of 1944 including at least 800 converted to Sea Hurricanes and some 1,400 built in Canada. The book collates a variety of pamphlets and manuals on the plane that were produced throughout the war for the benefit of pilots and others associated with the aircraft.
