the history and the business of coffee are the stories that this book will tell through the lens of the law that is through legal cases involving the production distribution marketing and sale of coffee in the americas during a brief moment in coffee history from the early days of the new republic of the united states to the present introduction p xiii elvis presley was a true icon of 20th century american culture and from the beginning he entered into license agreements to use his name and likeness in connection with the marketing and sale of countless consumer goods this new addition to the aba little book series delves into the legal side of elvis so get all shook up and enjoy this fun and intriguing look into the trials and tribulations of the king the contemporary us legal culture is marked by ubiquitous battles among various groups attempting to seize control of the law and wield it against others in pursuit of their particular agenda this battle takes place in administrative legislative and judicial arenas at both the state and federal levels this book identifies the underlying source of these battles in the spread of the instrumental view of law the idea that law is purely a means to an end in a context of sharp disagreement over the social good it traces the rise of the instrumental view of law in the course of the past two centuries then demonstrates the pervasiveness of this view of law and its implications within the contemporary legal culture and ends by showing the various ways in which seeing law in purely instrumental terms threatens to corrode the rule of law this fun book discusses the history and cases surrounding the music business from the early 20th century through today the cases include legal issues which have had significant effects on the evolution of the industry and are illuminated by the personalities conflicts and overwhelming talents within the music industry including stories featuring enrico caruso richard montauk an administrations insider and lawyer demystifies the law school application process and provides the tools to ace every step along the way based on and including exclusive interviews with admissions officers montauk delivers a candid view of what leading law schools look for in an applicant he also gives applicants solid advice on developing marketing strategies writing winning essays maximizing financial aid and updating credentials to better match that ideal profile the ground is shifting beneath our feet technology and globalization continue to uproot and reshape daily life and economics global supply chains are growing more deeply embedded in every region of the world digital platforms connect billions around the planet in ever more complex networks of data and exchange in 2005 thomas friedman reduced these phenomena to one phrase the title of his massively successful book the world is flat the flat world is one of tremendous possibility but it also poses new challenges to stability and shared prosperity how will we come up with the new rules we need to make sure we continue to innovate and grow but also become a fairer safer and more inclusive global community law and economics professor gillian k hadfield picks up where friedman s book left off peeling back the technological layer to look at the rule systems that guide global integration our legal infrastructure and argues that our existing approaches to making rules are no longer working they are not only too slow costly and localized for increasingly complex advanced economies our rules also fail to address looming challenges such as poverty instability and oppression for the four billion living in poor and developing countries largely outside of any formal legal framework following a rich and sweeping overview of the long term evolution of social rules that made complex human societies and economic interdependence possible hadfield makes the case for building a more agile market based and globally oriented legal infrastructure combining an impressive grasp of contemporary economic globalization with an ambitious re envisioning of our global legal system rules for a flat world will transform our understanding of how to best achieve a more sustainable and vibrant global economy spanit s a fascinating look at the novel and diverse legal questions surrounding skiing read about theory this book describes the access to justice crisis facing low and middle income americans and the current reforms to address it the comprehensive source on attorney licensing and how to reform it in shaping the bar joan howarth describes how the twin gatekeepers of the legal profession law schools and licensers are failing the public attorney licensing should be laser focused on readiness to practice law with the minimum competence of a new attorney according to howarth requirements today are both too difficult

and too easy amid the crisis in unmet legal services record numbers of law school graduates disproportionately people of color are failing bar exams that are not meaningful tests of competence to practice at the same time after seven years of higher education hundreds of thousands of dollars of law school debt two months of cramming legal rules and success on a bar exam a candidate can be licensed to practice law without ever having been in a law office or even seen a lawyer with a client howarth makes the case that the licensing rituals familiar to generations of lawyers unfocused law degrees and obsolete bar exams are protecting members of the profession more than the public beyond explaining the failures of the current system this book presents the latest research on competent lawyering and examples of better approaches this book presents the path forward by means of licensing changes to protect the public while building an inclusive diverse competent ethical profession outsourcing and diy legal services updated data and tables along with all underlying research on the surface law schools today are thriving enrollments are on the rise and their resources are often the envy of every other university department law professors are among the highest paid and play key roles as public intellectuals advisers and government officials yet behind the flourishing facade law schools are failing abjectly recent front page stories have detailed widespread dubious practices including false reporting of lsat and gpa scores misleading placement reports and the fundamental failure to prepare graduates to enter the profession addressing all these problems and more in a ringing critique is renowned legal scholar brian z tamanaha piece by piece tamanaha lays out the how and why of the crisis and the likely consequences if the current trend continues the out of pocket cost of obtaining a law degree at many schools now approaches 200 000 the average law school graduate s debt is around 100 000 the highest it has ever been while the legal job market is the worst in decades with the scarce jobs offering starting salaries well below what is needed to handle such a debt load at the heart of the problem tamanaha argues are the economic demands and competitive pressures on law schools driven by competition over u s news and world report ranking when paired with a lack of regulatory oversight the work environment of professors the limited information available to prospective students and loan based tuition financing the result is a system that is fundamentally unsustainable growing concern with the crisis in legal education has led to high profile coverage in the wall street journal and the new

york times and many observers expect it soon will be the focus of congressional scrutiny bringing to the table his years of experience from within the legal academy tamanaha has provided the perfect
